

Procurement via GeM crosses record ₹1 trn

BANIKINKAR PATTANAYAK
New Delhi, March 24

A SPURT IN purchases by various ministries and departments drove up the procurement of goods and services through the government e-marketplace (GeM) portal to a record ₹1 trillion this fiscal.

GeM chief executive PK Singh said before the latest feat, procurement through the portal had breached the ₹1-trillion mark only in about four-and-a-half years. Now, it has been achieved in the current fiscal itself. It has emerged as one of the top five e-public procurement systems globally, he added. He exuded confidence procurement via GeM will exceed ₹1.5 trillion in the next fiscal.

The GeM portal was launched in August 2016, as the Centre wanted to improve transparency in purchases of various goods and services by all the central government ministries, departments and public-sector firms and state governments, apart from providing a new-age platform for

official procurement. Sellers range from small business to large companies. Interestingly, there are no Chinese products sold on the portal, Singh added. Procurement by central public sector enterprises alone jumped many folds to about ₹43,000 crore in FY22.

Prime Minister Narendra Modi, too, hailed the performance of the GeM portal and added that the platform is especially empowering the small businesses. "Happy to know that @GeM India has achieved order value of Rs 1 Lakh Crore in a single year! This is a significant increase from

previous years," he tweeted.

The portal will allow online buying and selling by panchayats in a big way. "The pilot in Gurugram district panchayats has been successfully completed and we will roll out this across the country," Singh said. It's also in an advanced stage of integration with India Post for extending logistic services across the country. Moreover, at least 10,000 start-ups have so far registered on the GeM platform. Uttar Pradesh, Delhi, Gujarat and Madhya Pradesh lead the pack of state governments in purchasing through this portal.

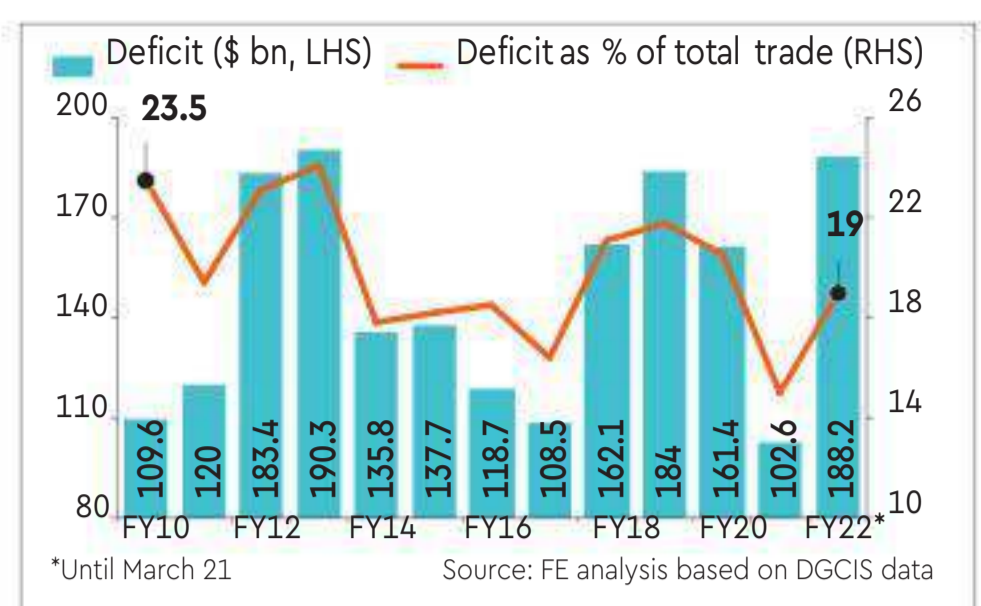

At \$190 bn, FY22 trade deficit around previous record, but less onerous now

BANIKINKAR PATTANAYAK
New Delhi, March 24

INDIA'S MERCHANDISE TRADE deficit is set to breach the earlier record of \$190 billion by a whisker in the current fiscal. But a close look at the data suggests the deficit, as a percentage of overall merchandise commerce, is still way below the earlier peak.

Trade deficit already hit \$188.2 billion as of March 21 this fiscal. At this rate, it's expected to touch 19% of overall goods trade in FY22, compared with a record 24% in FY13, 23% in FY12 and 20.5% in the pre-pandemic year of FY20 (See chart).

In the last fiscal, however, given a Covid-induced demand compression in the economy, imports shrank at a much faster pace than exports, leading to a drop in deficit to just 15% of overall merchandise trade. However, deficit in H2 of this fiscal grew dramatically, especially in the third quarter, as domestic demand had rebounded before the Omicron onslaught in January. This keeps up pressure on the current account deficit (CAD) at a time

when foreign portfolio investors have turned net sellers in recent months.

Pronab Sen, noted economist and former chairman of the National Statistical Commission, said while the export sector has performed well in FY22 the more important question is whether this growth in outbound shipments (37% year-on-year) will sustain. Moreover, imports went up sharply this fiscal, partly because an income distribution in favour of the richer segment of population in the wake of the Covid outbreak led to higher purchases of (imported) luxury

goods, Sen added.

Analysts also said if exports lose pace in the next fiscal and imports continue to rise, the pressure on the current account will only rise.

Aditi Nayar, chief economist at Ica, expected the CAD to have crossed 3% in the October-December 2021 period for the first time since the June quarter of 2013. However, it may recede somewhat in the ongoing quarter. In absolute terms, she estimated the CAD at \$25-28 billion in the third quarter, and a moderately lower \$20-23 billion in Q4 FY2022.

Bank of Baroda chief econo-

mist Madan Sabnavis estimated the CAD to be around 3% in the third quarter, which may ease to 2.5% in the March quarter.

Merchandise exports exceeded an ambitious target of \$400 billion for FY22 nine days before the fiscal is set to end, staging a smart rebound after a 7% drop last fiscal due to the pandemic. Exports jumped 37%, albeit on a contracted base, to \$400.8 billion as of March 21, driven by a stellar performance by sectors like engineering, electronics, gems and jewellery, chemicals and petroleum products. Imports during this period, too, rose sharply to \$589 billion, driven by a spike in oil prices and massive purchases of coal and gold.

However, the Ukraine crisis has now posed fresh risks for exporters, as global supply chains remain tangled and shipping costs have skyrocketed across countries. Of course, it has also created some opportunities for Indian suppliers of wheat (Russia and Ukraine are large exporters of the grain) and some other farm commodities in the export market.

House nod to final supplementary demands for FY22

FE BUREAU
New Delhi, March 24

THE GOVERNMENT HAS received approval for an additional spending of ₹1.58 trillion, as Parliament has cleared the third batch of supplementary demands for grants for the current fiscal.

This involves a higher than-expected net cash outflow of ₹1.07 trillion; the rest (₹50,946 crore) would be met through savings or enhanced receipts of various ministries and departments.

Some of the key proposals involving the extra net cash outflow were for credit-linked subsidy scheme under the Pradhan Mantri Awas Yojana-Urban (₹30,170 crore); for the payment of urea subsidy (₹14,902 crore); for the new development financial institution, called NaBFID, and recapitalisation of state-run insurers (₹13,049 crore) and for contributions to and grants for the Employees' Pension Scheme (₹9,211 crore).
