This Draft Letter of Offer contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements because of certain factors, including the considerations described below and elsewhere in this Draft Letter of Offer.

The following risk factors have been determined by our Board of Directors on the basis of their materiality. In accordance with Clause (VI) in Part B of Schedule VI of the SEBI ICDR Regulations, the following factors have been considered for determining the materiality: (i) Some events may not be material individually, but may be found material collectively, (ii) some events may have material impact qualitatively instead of quantitatively; and (iii) some events may not be material at present but may have material impact in the future.

INTERNAL RISK FACTOR:

- The novel coronavirus (COVID-19) pandemic outbreak and steps taken to control the same have significantly impacted our business, results of operations, financial condition and cash flows and further impact will depend on future developments, which are highly uncertain.***

The rapid spread of COVID-19 and global health concerns relating to this outbreak have had a severe negative impact on all businesses, including the industry in which our Company operates and from where it derives substantial revenues and profits. The COVID-19 pandemic could continue to have an impact that may worsen for an unknown period of time. Currently, there is substantial medical uncertainty regarding COVID-19 and till any cure is found, this pandemic may continue to cause unprecedented economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of COVID-19 remain uncertain and could be severe.

At this point of time, our Company cannot predict by when our Company's operation shall resume to normalcy, or at all. Further if in case due to any subsequent wave of Coronavirus, if long term lockdown is imposed in the country or the state in which we perform our business, we may face huge losses and our business operations could be severely impacted.

- Our Company, our Group Company, our Promoters and Directors are parties to certain legal proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, result of operations and financial conditions.***

For further details, please refer "Outstanding Litigation and Material Developments" beginning on page 127 of this Letter of Offer.

3. *Our Company has certain contingent liabilities and profitability may be adversely affected if any of these contingent liabilities materialize.*

As on the date of this DLOF, our Company has issued a Corporate Guarantee amounting to Rs.5,200.00 Lakhs in favor of State Bank of India for Loan by Asian Tea Company Pvt. Ltd., being an associate of the Parent Company. Currently there is no default in Loan repayments, however in the unlikely event of default resulting in invoking of the Bank guarantee in future on failure of Asian Tea Company Pvt. Ltd. to refund the loan to the bank, can have a material adverse effect on our financial position and results of operations.

4. *We are heavily dependent on certain suppliers for procurement and sale of our traded goods. Any disruption of supply from such entities may affect our business operations.*

We mainly procure our traded goods from various players in Indian Agro Industry. We believe that the quality of agro products supplied, the transparent pricing, locational advantage, etc. are some of the major reasons, our Company prefers to procure our traded goods from these key players. However, we have not entered into any formal agreement or MOU with these key suppliers. Also, the fact that we are so heavily dependent on these suppliers, exposes us indirectly to the risks that these suppliers face. Any failure of the suppliers to deliver these traded goods in the necessary quantities or to adhere to delivery schedules or specified quality standards and specifications would adversely affect our business operations and our ability to deliver orders on time and at the desired level of quality. As a result, we may lose customers and incur liabilities for failure to execute orders, which could have a material adverse effect on our business financial condition and results of operations.

5. *In the past, there have been instances of delays on filings of certain forms/documents/information which were required to be filed as per the reporting requirements under the SEBI (LODR) Regulations and Companies Act, 2013 to RoC.*

In the past, there have been certain instances of delay in filing certain forms/documents/information, as per the reporting requirements under the SEBI (LODR) Regulations and Companies Act, 2013. The BSE has penalized for delay in filing various documents amounting to Rs. 16.85 Lakhs during March 2020 to June 2021, Rs. 9440/- paid as penalty for delay in filing of Audited Financial results for the quarter ended on 31/03/2020, Rs. 5900/- paid as penalty for delay in filing of Audited Financial results for the quarter ended on 31/03/2019, and Rs. 23,600/- paid for delay in filing of Corporate Governance report for the quarter ended on September 2018 etc.

Further, penalty or fine may be imposed by the authority in some cases in respect to the same. It cannot be assured, that there will not be such instances in the future or our Company will not commit any further delays or defaults in relation to its reporting requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same. The happening of such event may cause a material effect on our results of operations and financial position.

6. *Pending transfer of shares pursuant to a Scheme of Amalgamation amongst the shareholders (companies) of the Company.*

Pursuant to a scheme of amalgamation approved by the Hon'ble National Company Law Tribunal, Kolkata Bench vide order dated 16/12/2020, wherein Kanchan Wood Products Pvt. Ltd, Deluxe Dealcom Pvt. Ltd, Nibedita Vanijya Private Ltd, and Adyamaa Tracom Pvt. Ltd. (Transferor Companies) were amalgamated with Greenex Chemicals Pvt. Ltd. (Transferee Company). By virtue of this amalgamation, 7,59,511 (Nos.) of Equity shares of our Company held by the Transferor Companies are required to be transferred to Greenex Chemicals Pvt. Ltd. (Transferee Company).

The said transfer could not be effected due to Covid pandemic and is taking steps to get the transfers done. However, in the unlikely event, if the above share transfers are not effected before the record date of this Rights Issue, then the transferee company will not be able to avail the Rights offer for the 7,59,511 (Nos.) of shares. Further, the regulatory authority may impose penalty for non-compliance/delayed compliance of implementation of the Order of Hon'ble National Company Law Tribunal, Kolkata Bench.

7. *The prices of agricultural commodities are volatile*

The prices of agricultural commodities are volatile and depends on various macro and micro economic factors including the impact of Covid pandemic, rise in crude oil prices, climatic conditions, demand-supply metrics etc. This price risk affects producers, consumers, and traders of commodities. Keeping a close watch on the economic and related factors, using historical price analysis and watching key trends may help reduce price risk to some extent.

8. We operate in a highly-competitive and fragmented industry, and our business, results of operations and financial condition may be adversely affected if we are not able to compete effectively.

We operate in the highly competitive and fragmented agro based commodities industry. There are no entry barriers in our industry, which puts us to the threat of competition from new entrants. Numerous players operate in the industry. We face tough competition in our business from a large number of unorganized and a few organized players. Our aim is to provide the branded, standardized and uniform quality products at competitive prices to our consumers. We compete with our competitors on a regional or product line basis. Many of our competitors have substantially large capital base and resources than we do and offer broader range products. We believe that the principal factors affecting competition in our business include client relationships, reputation, the abilities of employees, market focus and the relative quality and price of the services and products.

Our future success depends on our ability to compete effectively which is primarily dependent on ensuring consistent product quality and timely delivery at competitive prices and our cost effective and integrated offerings, our focus on customer satisfaction and our reliability combined with our quality consciousness.

9. We have incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations. We may also be unable to obtain future financing to fund our operations, expected capital expenditure and working capital requirements on favourable terms, or at all.

Our company is having Term Loan and working capital loans. Our level of indebtedness has important consequences to us, such as:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- affecting our credit rating;
- limiting our ability to borrow more money both now and in the future; and
- increasing our interest expenditure and adversely affecting our profitability.

If any of these risks were to materialise, our business and results of operations may be adversely affected. Our business requires funding for capital expenditure and working capital requirements. The actual amount and timing of future capital expenditure may depend on several factors, among others, new opportunities, availability of land, regulatory approvals, regulatory changes, economic conditions, technological changes and market developments in our industry. Our sources of additional funding, if required, to meet our capital expenditure may include the incurrence of debt or the issue of equity or debt securities or a combination of both. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations. In case there is insufficient cash flow to meet our working capital requirement or we are unable to arrange the same from other sources or there is delay in disbursement of arranged funds, or there is any increase in interest rate on our borrowings, it may adversely affect our operations and profitability. These factors may result in an increased amount of short-term borrowings.

10. We rely on third party logistic providers, with whom we have no formal arrangements. Any disruption in our transportation arrangements or increases in transportation costs may adversely affect our business, results of operations and financial condition.

We rely on third party logistic providers and consequently, any disruption in our transportation arrangements or increases in transportation costs may adversely affect our business, results of operations and financial condition. There are a limited number of such logistic providers and in the absence of a formal arrangement, we are exposed to fluctuations in transportation costs. Also, if the terms offered to such logistic providers by our competitors are more favourable than those offered by us, they may decline to provide their services to us and terminate their informal arrangements with us. We may also be affected by transport strikes, which may affect our delivery schedules. If we are unable to secure alternate transport arrangements in a timely manner and at an acceptable cost, or at all, our business, results of operations and financial condition may be adversely affected.

11. We are subject to certain government regulation and if we fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business, our business and results of operations may be adversely affected.

Our operations are subject to certain government regulation and we are required to obtain and maintain a number of statutory and regulatory permits and approvals under central, state and local government rules in India, generally for carrying out our business. A majority of these approvals are granted for a limited duration and require renewal. Further, while we have applied for some of these approvals, we cannot assure you that such approvals will be issued or granted to us in a timely manner, or at all. We cannot assure you that we will be able to obtain such consent in a timely manner. If we do not receive such approvals or are not able to renew the approvals in a timely manner, our business and operations may be adversely affected. The approvals required by our Company are subject to numerous conditions and we cannot assure you that these would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject

to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business.

12. *The success of our business is largely dependent upon our senior management and key personnel and our ability to attract and retain them could adversely affect our businesses*

The success of our business is largely dependent upon our senior management. Our experienced senior management and Directors have had significant contribution to the growth of our business, and our future success is dependent on the continued services of our senior management team. Whereas, our Managing Director and majority of the Directors/Independent Directors have decades of experience and are actively participating in the growth of our business in spite of some of them reaching the age of 70 years or more. However ageing and other factors may impair their ability and agility to continue in the same manner in the future times to come. So the loss of service of our senior management could seriously impair the ability to continue to manage and expand the business efficiently. Further, the loss of any of our senior management may adversely affect the operations, finances and profitability of our Company.

13. *Our business and results of operations are dependent on the contracts, including certain short-term contracts that we enter into with our customers. Any breach of the conditions under these contracts may adversely affect our business and results of operations*

We have entered into some short-term as well as long-term contracts with our customers which, depending on the customer, may contain certain terms and conditions. Any dispute with a customer with respect to such obligations could have adverse effects on our relationship with that customer and other current and prospective customers, reduce demand for our products, damage our reputation and harm our business, results of operations and financial condition. While we internally consider all such factors prior to entering into these contracts, we cannot assure you that we will be able to continue to enter into similar such contracts in the future, which are not more onerous than the contracts we enter into currently. Additionally, non-compliance with the terms of our contracts, including breach of confidentiality provisions, may subject us to damages or penalties, lead to termination of the contracts and also result in us being unable to attract further business in the future.

14. *Our business is dependent on developing and maintaining continuing relationships with our clients and customers. The loss of any significant client or customer could have a material adverse effect on our business, financial condition and results of operations.*

Our business is dependent on developing and maintaining a continuing relationship with our key clients and customers. In the event of a significant decline in the demand for our products or services by our key clients, our business, results of operations and financial condition may be materially and adversely affected. There can be no assurance that we will be able to maintain the historic levels of business from these clients and customers or that we will be able to replace these clients in case we lose any of them.

15. *The industry in which we operate, is labour intensive and our operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or any other kind of disputes with our employees.*

The industry in which we operate being labour intensive depends on labour force for carrying out its activity. Although we have not experienced any labour unrest, we cannot assure you that we will not experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. Any labour unrest directed against us, could directly or indirectly prevent or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations. These actions are impossible for us to predict or control and any such event could adversely affect our business, results of operations and financial condition.

16. *Our company is using different registered Logos for different purpose. Registration of trademark of one logo “” has been expired. There is no assurance that the renewal application shall result in us being granted registration in a timely manner. Failure to protect our intellectual property may adversely affect our reputation, goodwill and business operations*

Our Company has been using the said trademark since 11/02/1987. We have applied for registration of our above-mentioned logo on 09/08/2010 and got its registered on 29/10/2012 in the name of our company. However, the present status of the said trademark has been showing as Abandoned. As such, we do not enjoy the statutory protection accorded to a registered trademark as on date. There can be no assurance that we will be able to register the trademark in future or that, third parties will not infringe our intellectual property, causing damage to our business prospects, reputation and goodwill. Further, we cannot assure you that any application for registration of our trademark in future by our Company will be granted by the relevant authorities in a timely manner or at all. Our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly and the outcome cannot be guaranteed. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property. For further details of our trademarks, please see “*Government and Other Approvals*” beginning on page no. 131 of this Draft Letter of Offer.

17. Our Company is subject to foreign exchange control regulations which can pose a risk of currency fluctuations.

Our Company is involved in various business transactions with international clients and has to conduct the same in accordance with the rules and regulations prescribed under FEMA. Due to non-receipt of such payments in a timely manner, our Company may fail to adhere to the prescribed timelines and may be required to pay penalty to the appropriate authority or department to regularize the payment. Further, our international operations (export sales) make us susceptible to the risk of currency fluctuations, which may directly affect our operating results. In case we are unable to adhere to the timelines prescribed under the applicable laws or are unable to mitigate the risk of currency fluctuation, it may adversely affect our business, results of operations, financial conditions and cash flows.

18. Our Registered Office and other premises from where we operate are not owned by us

None of our business premises is owned by us. Our Registered office and other business premises are taken on leave and License basis. The registered office is owned by M/s. Greenol Laboratories Pvt Ltd (subsidiary of Issue Company). We cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favourable terms in future. If we are required to vacate the current premises, we would be required to make alternative arrangements for new offices and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favourable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

22. *Our Company's insurance coverage to protect us against all material hazards which may result in disruptions of operations/monetary loss on account of stoppage of work may not be sufficient.*

Our Company has insured itself against some business or operational risks. But we cannot assure you that these would be sufficient to protect us against all material hazards which may result in disruptions of operations/monetary loss on account of stoppage of work. Any excess loss would have to be borne by us and our results of operations, cash flows and financial performance could be adversely affected.

23. *We do not have long term agreements with suppliers of raw material and an increase in the cost of or a shortfall in the availability of raw materials could have an adverse effect on our business, results of operations and financial condition.*

The price and availability of raw materials depend on several factors beyond our control, including overall economic conditions, production levels, market demand and competition for such material, production and transportation cost, duties and taxes and trade restrictions. We usually do not enter into long term supply contracts with any of the raw material supplier and typically place orders with them in advance for our anticipated requirements. The absence of long-term contracts at fixed prices exposes us to volatility in the prices of raw material that we require and we may be unable to pass these costs onto our customers. We also face a risk that one or more of our existing suppliers may discontinue their supplies to us, and any inability on our part to procure the raw material from alternate suppliers in a timely fashion, or on terms acceptable us, may adversely affect our operations and our financial performance.

24. *We require high working capital for our smooth day to day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favourable terms may have an adverse effect on our operations, profitability and growth prospects.*

Our business demands substantial funds towards working capital requirements. In case there are insufficient cash flows to meet our working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure funds on favourable terms, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects.

25. *The improper handling of our products, or spoilage of and damage to such products, or any real or perceived contamination/ inferiority in products, could subject us to regulatory action, damage our reputation and have an adverse effect on our business, results of operations and financial condition.*

Any shortcoming in the supply of our product due to negligence, human error or otherwise, may damage our products and result in non-compliance with applicable regulatory standards. Any allegation that our material are of inferior quality could damage our reputation, adversely affect our sales and result in legal proceedings being initiated against us, irrespective of whether such allegations have any factual basis.

26. *Our inability to expand or effectively manage our growing customer groups may have an adverse effect on our business, results of operations and financial condition.*

We have our own sales network and marketing team. To sell our products to our end consumers, we use modern trade channels. Our ability to expand and grow our product reach significantly depends on the reach and effective management of our sales network. We continuously seek to increase the penetration of our product into different customer groups. We cannot assure you that we will be able to successfully identify new consumers. Due to this our business and results of operations may be adversely affected.

27. *Our actual results could differ from the estimates and projections used to prepare our financial statements.*

The estimates and projections are based on and reflect our current expectations, assumptions and/ or projections as well as our perception of historical trends and current conditions, as well as other factors that we believe are appropriate and reasonable under the circumstances. There can be no assurance that our expectations, estimates, assumptions and/or projections, including with respect to the future earnings and performance will prove to be correct or that any of our expectations, estimates or projections will be achieved.

28. *We have entered into certain related party transactions and may continue to do so.*

We have entered into related party transactions with our Promoters, its group members/ entities, Directors and other associates. While we believe that all such transactions have been conducted on arm's length basis, however it is difficult to ascertain whether more favourable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we will continue to enter into related party transactions in the near future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation.

29. *Non-compliance with and changes in, safety, health and environmental laws and other applicable regulations, may adversely affect our business, results of operations and financial condition.*

We are subject to laws and government regulations, including in relation to safety, health and environmental protection. We cannot assure you that we will not be involved in future litigation or other proceedings, or be held liable in any litigation or proceedings including in relation to safety, health and environmental matters, the costs of which may be significant. Any accidents at our facilities may result in personal injury or loss of life resulting in the suspension of operations. The loss or shutdown of our operations over an extended period of time could have an adverse effect on our business and operations.

30. *Our business and prospects may be adversely affected if we are unable to maintain and grow our brand image.*

Our brand and its reputation are among our most important assets and we believe our brands serve in attracting customers to our product in preference over those of our competitors. We also believe that continuing to develop awareness of our brand, through focused and consistent branding and marketing initiatives, among retail consumers, is important for our ability to increase our sales volumes and our revenues, grow our existing market share and expand into new markets. Consequently, any adverse publicity involving us, or any of our products may impair our reputation, dilute the impact of our branding and marketing initiatives and adversely affect our business and our prospects.

31. *Any delay or default in customer's payment could result in the reduction of our profits.*

Our operations involve extending credit for extended periods of time to our certain customers and consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. As a result of such industry conditions, we have and may continue to have high levels of outstanding receivables. If our customers delay or default in making these payments, our profits margins could be adversely affected.

32. *The Promoters and Directors hold Equity Shares in our Company and are therefore interested in our Company's performance in addition to their remuneration and reimbursement of expenses.*

Certain of our Directors (including our Promoters) are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders.

33. *We are dependent on a number of key personnel, including our senior management, and the loss of or our inability to attract or retain such persons could adversely affect our business, results of operations and financial condition.*

Our performance depends largely on the efforts and abilities of our senior management and other key personnel. We believe that the inputs and experience of our senior management and key managerial personnel are valuable for the development of business and operations and the strategic directions taken by our Company. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an adverse effect on our business and our results of operations. The continued operations and growth of our business is dependent upon our ability to attract and retain personnel who have the necessary and required experience and expertise. Competition for qualified personnel with relevant industry expertise in India is intense. A loss of the services of our key personnel may adversely affect our business, results of operations and financial condition.

34. *Certain relevant copies of education qualification and experience certificates of our promoters/Directors are not traceable.*

Relevant copies of education qualification and experience certificates of some of our promoters/Directors are not traceable. We can't assure you that back-ups for the relevant copies of educational qualifications will be available in a timely manner or at all. We have relied on personal undertakings provided from them.

35. *Our Company has availed certain unsecured loans that are recallable by the lenders at any time.*

Our Company had availed certain unsecured loans and may continue to do so in future that are recallable on demand by the lenders. In such cases, the lender is empowered to require repayment of the facility at any point in time during the tenor. In case the loan is recalled on demand by the lender and our Company is unable to repay the outstanding amounts under the facility at that point, it would constitute an event of default under the respective loan agreements. For further details, please refer chapter titled "*Financial Information*" beginning on page 49 of this Draft Letter of Offer.

36. *Our funding requirements and the proposed deployment of the funds are based on management estimates and have not been independently appraised.*

Our funding requirements and the proposed deployment of the funds are based on management estimates and is subject to change in light of changes in external circumstances, costs, other financial condition or business strategies, and have

not been appraised by an independent entity. In the absence of such independent appraisal, or the requirement for us to appoint a monitoring agency in terms of the SEBI Regulations, the deployment of the Issue Proceeds is at our discretion. We cannot assure you that we will be able to monitor and report the deployment of the funds in a manner similar to that of a monitoring agency. Further, we may have to revise our expenditure and funding requirements as a result of variations in costs, estimates, quotations or other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling planned expenditure and funding requirements at the discretion of our Board. Additionally, various risks and uncertainties, including those set out in this “Risk Factors” section, may limit or delay our Company’s efforts to use the funds and to achieve profitable growth in our business.

37. Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.

Any future equity issuances by our Company may lead to the dilution of investors’ shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

38. The Right Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.

The Issue price is based on numerous factors and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

39. Any future acquisitions, joint ventures, partnerships, strategic alliances, tie-ups or investments could fail to achieve expected synergies and may disrupt our business and harm our financial condition and operating results.

Our success will depend, in part, on our ability to expand our business in response to changing technologies, customer demands and competitive pressures. We have, in the past, explored and continue to explore opportunities on our own, or through tie-ups, acquisitions, strategic alliances, partnerships or joint ventures across countries and regions of focus. In some circumstances, we may also decide to acquire, or invest in, complementary technologies instead of internal development. While we are currently evaluating opportunities and speaking to several potential partners, we have not entered into any definitive agreements in relation to this. Further, the identification of suitable acquisition can be difficult, time-consuming and costly, and we may not be able to successfully complete acquisitions that we target in the future. The risks we face in connection with acquisitions may include integration of product and service offerings, co-ordination of R&D and sales and marketing functions and the diversion of management time and focus from operating our business to addressing acquisition integration challenges. Our failure to address these risks or other problems encountered in connection with our acquisitions and investments could cause us to fail to realise the anticipated benefits of these acquisitions or investments, cause us to incur unanticipated liabilities, and harm our business generally.

40. Managing employee benefit pressures in India may prevent us from sustaining our competitive advantage which could adversely affect our business prospects and future financial performance.

Employee benefits represent a major expense for us and our ability to maintain or reduce such costs is critical for our business operations. We may be required to increase employee compensation levels to remain competitive and manage attrition, and consequently we may need to increase the prices of our products and services. An increase in wages/ salaries paid to our employees may result in a material adverse effect on our profits in the event that we are unable to pass on such increased expenditure to our users or customers without losing their business to our competitors. Likewise, if we are unable to sustain or increase the number of employees as necessary to meet growing demand, our business, financial condition and results of operations could be adversely affected.

RISKS RELATING TO RIGHTS ISSUE
1. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of Investor's shareholding.

The Rights Entitlements that are not exercised prior to the end of the Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Rights Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Rights Issue with respect to such Rights Entitlements.

2. The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.

In accordance with the circular SEBI Circular SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated January 22, 2020, the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

3. Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant's decision to invest in the Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

4. Investors will be subject to market risks until the Equity Shares credited to the investors demat account are listed and permitted to trade.

Investors can start trading the Equity Shares allotted to them only after they have been credited to the investor's demat account, are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchanges, investors will be subject to market risk from the date they pay for the Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that the Equity Shares allocated to an investor will be credited to the investor's demat account or that trading in the Equity Shares will commence in a timely manner.

5. Any future issuance of Equity Shares by us or sales of our Equity Shares by any of our significant shareholders may adversely affect the trading price of our Equity Shares.

Any future issuance of our Equity Shares by us could dilute your shareholding. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may also adversely affect the trading price of our Equity Shares and could impact our ability to raise capital through an offering of our securities. We cannot assure you that we will not issue further Equity Shares or that the shareholders will not dispose of, pledge or otherwise encumber their Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

6. No market for the Rights Entitlements may develop and the price of the Rights Entitlements may be volatile.

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchanges during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the trading price of the Equity Shares may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements

7. The Equity Shares to be allotted may not be credited to your demat account in a timely manner and cannot be traded unless the listing and trading approval is received or at all.

There is no guarantee that the Rights Equity Shares issued pursuant to this Rights Issue will be listed on the Stock Exchange in a timely manner. In accordance with Indian law and regulations and the requirements of the Stock Exchange, in principle and final approvals for listing and trading of the Rights Equity Shares issued pursuant to this Rights Issue will not be applied for or granted until after the Rights Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorising the issuing of Rights Equity Shares to be submitted. Accordingly, there could be a failure or delay in listing the Rights Equity Shares on the Stock Exchange. If there is a delay in obtaining such approvals, we may not be able to credit the Rights Equity Shares allotted to the Investors to their depository participant accounts or assure ownership of such Rights Equity Shares by the Investors in any manner promptly after the Closing Date. In any such event, the ownership of the Investors over Rights Equity Shares allotted to them and their ability to dispose of any such Equity Shares may be restricted.

8. The R-WAP payment mechanism facility proposed to be used for this Issue may be exposed to risks, including risks associated with payment gateways.

In accordance with SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2020/78 dated May 6, 2020, read with SEBI Circular No. SEBI/HO/CFD/DIL1/CIR/P/2020/136 dated July 24, 2020 and SEBI/HO/CFD/DIL1/CIR/P/2021/13 dated January 19, 2021 a separate web-based application platform, i.e., the R-WAP facility (accessible at <https://rights.cameoindia.com/asiantea>), has been instituted for making an Application in this Issue by resident Investors. Further, R-WAP is only an additional option and not a replacement of the ASBA process. On R-WAP, the resident Investors can access and fill the Application Form in electronic mode and make online payment using the internet banking or UPI facility from their own bank account thereat. For details, see “*Issue Information*” beginning on page no. 136 of this Draft Letter of Offer. Such payment gateways and mechanisms are faced with risks such as:

- keeping information technology systems aligned and up to date with the rapidly evolving technology in the payment services industries;
- scaling up technology infrastructure to meet requirements of growing volumes;
- applying risk management policy effectively to such payment mechanisms;
- keeping users’ data safe and free from security breaches; and
- effectively managing payment solutions logistics and technology infrastructure.

Further, R-WAP is a new facility which has been instituted due to challenges arising out of COVID-19 pandemic. We cannot assure you that R-WAP facility will not suffer from any unanticipated system failure or breakdown or delay, including failure on part of the payment gateway, and therefore, your Application may not be completed or rejected. These risks are indicative and any failure to manage them effectively can impair the efficacy and functioning of the payment mechanism for this Issue. Since Application process through R-WAP is different from the ASBA process, there can be no assurance that investors will not find difficulties in accessing and using the R-WAP facility.

EXTERNAL RISK FACTORS

1. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

2. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs. 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty

between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

3. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- Goods and Service

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

4. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

5. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the Draft Letter of Offer.*

While facts and other statistics in the Draft Letter of Offer relating to India, the Indian economy and the industry in which we operate has been based on various web site data and IBEF that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "**Industry Overview**" beginning on page 38 of this Draft Letter of Offer. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

6. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

7. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

8. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These

problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

- 9. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.***
Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.
- 10. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.***
India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.
- 11. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.***
Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

Road Ahead

India is expected to achieve the ambitious goal of doubling farm income by 2022. The agriculture sector in India is expected to generate better momentum in the next few years due to increased investment in agricultural infrastructure such as irrigation facilities, warehousing and cold storage. Furthermore, the growing use of genetically modified crops will likely improve the yield for Indian farmers. India is expected to be self-sufficient in pulses in the coming few years due to concerted effort of scientists to get early maturing varieties of pulses and the increase in minimum support price. In the next five years, the central government will aim US\$ 9 billion in investments in the fisheries sector under PM Matsya Sampada Yojana. The government is targeting to raise fish production to 220 lakh tonnes by 2024-25.

Going forward, the adoption of food safety and quality assurance mechanisms such as Total Quality Management (TQM) including ISO 9000, ISO 22000, Hazard Analysis and Critical Control Points (HACCP), Good Manufacturing Practices (GMP) and Good Hygienic Practices (GHP) by the food processing industry will offer several benefits. The agri export from India is likely to reach the target of US\$ 60 billion by the year 2022.

3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India (ICAI). A review of interim financial information consists of making inquiries, primarily of the Company's personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing specified under section 143(10) of the Companies Act, 2013 and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement
5. Further subject to the above, we draw your attention to the following matters:
 - a. The Company has non-current investment in unquoted equity shares of Doyapore Tea Industries Pvt. Ltd. and Azamabad Tea Company Pvt. Ltd. amounting to Rs. 255.08 Lakhs, Rs. 6.06 lakhs respectively. The said investments are valued at cost. Due to unavailability of audited financial statement for the FY 2020-21 the Company has relied on the audited financial statements for the year ended 31st march 2020. Where there is a decline in the value of investment amounting to Rs. 157.92 Lakhs and Rs. 5.21 Lakhs respectively. However, the Company has not made any provision for diminution in value of investment as in the view of management these investments are long term and such diminution is temporary in nature.

Our conclusion is not modified in respect of the above matters.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT**Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended March 31st 2021, we have audited the internal financial controls over financial reporting of **ASIAN TEA & EXPORTS LIMITED** (hereinafter referred to as "the Parent" or "Company"), as of that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Parent, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Parent considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Parent's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Parents' internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Parent's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Parent, has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021 based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note.

1.5 Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the group has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets/liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiary and associate where in case of assets it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which temporary difference can be utilized and in case of liabilities the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the group will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer convincing evidence to the effect that the group will pay normal income tax during the specified period.

Subsequent Measurement

These liabilities include are borrowings and deposits. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

De-Recognition of Financial Liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

1.11 Income Recognition:

Dividends- Dividends are recognized in profit or loss only when the right to receive payment is established.

Interest Income- Interest Income from debt instrument is recognised using the effective interest rate method.

1.12 Property, Plant and Equipment

All items of Property, Plant and Equipment are stated at historical cost less depreciation. Historical Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value:

Depreciation on Property, Plant and Equipment is provided as per Written Down Method (WDV). Depreciation for the current year is provided on the basis of useful lives as prescribed in Schedule II to the Companies Act, 2013, which in the view of the management is reasonable based on the life the asset is expected to be used.

The assets' residual values and useful lives are reviewed, adjusted if appropriate, at the end of each reporting period.

Gain and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/losses.

1.13 Equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

1.14 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the group, on or before the end of the reporting period but not distributed at the end of the reporting period.

1.15 Earnings per Share**1.15.1 Basic earnings per share**

Basic earnings per share is calculated by dividing:

- The profit attributable to owners of the group
- By the weighted average number of equity shares outstanding during the financial year.

1.15.2 Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- The after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

1.16 Impairment of Financial assets:

In accordance with Ind-AS 109, the group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets:

Trade Receivables

For recognition of impairment loss on Trade Receivable, the group determines whether there has not been a significant increase in the credit risk since initial recognition and if the credit risk has not increased significantly, no impairment loss is provided.

Other Financial Assets

For recognition of impairment loss on other financial assets and risk exposure, the group determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

1.17 Use of Estimates

The Preparation of financial statements in conformity with the generally accepted accounting principles in India requires the management to make estimates and assumptions that affects the reported amount of assets and liabilities as at the balance sheet date, the reported amount of revenue and expenses for the periods and disclosure of contingent liabilities at the balance sheet date. The estimates and assumptions used in the financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of financial statements and actual results could differ from estimates.

1.18 Borrowing

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method.

1.19 Borrowing Cost:

Interest and other borrowing costs attributable to qualifying assets are capitalised. Other interest and borrowing costs are charged to Statement of Profit and Loss.

1.20 Employee Benefits**Post-employment obligations - Defined benefit plans such as Gratuity:**

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity fund is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in other comprehensive income in the statement of changes in equity and in the balance sheet.

1.21 Provisions and contingent liabilities

Provisions are recognised when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the group or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

1.22 Principles of consolidation and equity accounting

1.22.1 Subsidiaries

Subsidiaries are all entities over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The group combines the financial statements of the parents and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

1.22.2 Associates

Associate is an entity over which the group has significant influence but not control or joint control. Investment in associate are accounted for using the equity method of accounting, after initially being recognised at cost.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profit or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income.

Dividends received or receivable from associate are recognised as a reduction in the carrying amount of the investment.

1.23 Control

The Group assessed whether or not it has control on its investees based on whether, as an investor, it has the power/rights and consequently the practical ability to direct the relevant activities of its investees unilaterally. In making this judgement, the Group considered the absolute size of its holding, the relative size of and dispersion of other shareholders, and whether any contractual arrangements exist between the Company (and its subsidiaries) and other shareholders of the investees. Based on this, and in accordance with its Accounting Policy, the Group has determined that the entities listed in the notes to the financial statements are the only entities over which Group has control.

41. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to market risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, the company has risk management policies as described below: -

(A) Credit risk

Credit risk refers to the risk of financial loss arising from default / failure by the counterparty to meet financial obligations as per the terms of contract. The Company is exposed to credit risk for receivables, cash and cash equivalents and financial guarantees. None of the financial instruments of the Company result in material concentration of credit risks.

Credit risk on receivables is minimum since sales are made after judging credit worthiness of the customers, advance payment or against letter of credit by banks. The history of defaults has been minimal and outstanding receivables are regularly monitored. Before giving loans to parties including subsidiary, the Company assesses the material risk on account of non-performance by any of the parties.

For derivative and financial instruments, the Company manage its credit risks by dealing with reputable banks and financial institutions.

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Liquidity risk refers to the risk that the Company fails to honour its financial obligations in accordance with terms of contract. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions.

1.1.2 Classification of Current and Non-Current:

All the Assets and Liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in the Ind AS 1- Presentation of Financial Statements and Schedule III to the Companies Act, 2013. 1.3 Foreign Currency Translation:

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in profit or loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognized in the Statement of Profit and Loss.

1.4 Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of tea claims and are net of sales return, sales tax/value added tax/goods and service tax, trade allowances and amount collected on behalf of third parties.

The company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and significant risk and rewards incidental to the sale of products is transferred to the buyer.

1.5 **Income Tax:**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets/liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiary and associate where in case of assets it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which temporary difference can be utilized and in case of liabilities the group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

- i. those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- ii. those measured at amortized cost.

The classification depends on the company's business model for managing the financial assets and the other contractual terms of cash flows.

1.10.1 Measurement - Equity Instruments:

The Company measures its equity investment other than in subsidiaries and associates at cost. However, where the Company's management makes an irrevocable choice on initial recognition to present fair value gains and losses on specific equity investments in other comprehensive income, there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to the Statement of Profit and Loss.

1.10.2 Measurement - Mutual Funds:

All mutual funds in scope of Ind-AS 109 are measured at fair value through profit and loss (FVTPL).

1.10.3 De-Recognition of Financial Assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

1.11 Financial Liabilities

Initial Recognition and Measurement

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortised cost.

Subsequent Measurement

These liabilities include are borrowings and deposits. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

De-Recognition of Financial Liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

1.12 Income Recognition

Dividends: - Dividends are recognized in profit or loss only when the right to receive payment is established
Interest Income- Interest Income from debt instrument is recognised using the effective interest rate method.

1.13 Property, Plant and Equipment:

All items of Property, Plant and Equipment are stated at historical cost less depreciation. Historical Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value:

Depreciation on Property, Plant and Equipment is provided as per Written Down Method (WDV). Depreciation for the current year is provided on the basis of useful lives as prescribed in Schedule II to the Companies Act, 2013, which in the view of the management is reasonable based on the life the asset is expected to be used.

The assets' residual values and useful lives are reviewed, adjusted if appropriate, at the end of each reporting period.

Gain and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/losses.

1.14 Equity:

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

1.15 Dividends:

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period.

1.16 Earnings per Share

1.16.1 Basic earnings per share

Basic earnings per share is calculated by dividing:

- The profit attributable to owners of the Company
- By the weighted average number of equities shares outstanding during the financial year.

1.16.2 Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

1.17 Impairment of Financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets:

Trade Receivables

For recognition of impairment loss on Trade Receivable, the Company determines whether there has been a significant increase in the credit risk since initial recognition and if the credit risk has increased significantly impairment loss is provided.

Other Financial Assets

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

1.18 Use of Estimates

The Preparation of financial statements in conformity with the generally accepted accounting principles in India requires the management to make estimates and assumptions that affects the reported amount of assets and liabilities as at the balance sheet date, the reported amount of revenue and expenses for the periods and disclosure of contingent liabilities at the balance sheet date. The estimates and assumptions used in the financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of financial statements. Actual results could differ from estimates.

1.19 Borrowing

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method.

1.20 Borrowing Cost:

Interest and other borrowing costs attributable to qualifying assets are capitalised. Other interest and borrowing costs are charged to Statement of Profit and Loss.

1.21 Employee Benefits

Post-employment obligations - Defined benefit plans such as Gratuity:

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity fund is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in Other Comprehensive Income in the statement of changes in equity and in the balance sheet.

1.22 Provisions and contingent liabilities:

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

ii. Valuation processes

The finance department of the company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. Discussions of valuation processes and results are held between the CFO and the valuation team at least once every three months, in line with the company's quarterly reporting periods.

40. FINANCIAL RISK MANAGEMENT

The Company's activities expose it to market risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Company, the company has risk management policies as described below: -

(B) Credit risk

Credit risk refers to the risk of financial loss arising from default / failure by the counterparty to meet financial obligations as per the terms of contract. The Company is exposed to credit risk for receivables, cash and cash equivalents and financial guarantees. None of the financial instruments of the Company result in material concentration of credit risks.

Credit risk on receivables is minimum since sales are made after judging credit worthiness of the customers, advance payment or against letter of credit by banks. The history of defaults has been minimal and outstanding receivables are regularly monitored. Before giving loans to parties including subsidiary, the Company assesses the material risk on account of non-performance by any of the parties.

For derivative and financial instruments, the Company manage its credit risks by dealing with reputable banks and financial institutions.

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(C) Liquidity risk

Liquidity risk refers to the risk that the Company fails to honour its financial obligations in accordance with terms of contract. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions.

Management monitors rolling forecasts of the company's liquidity position (including the undrawn credit facilities extended by banks and financial institutions) and cash and cash equivalents on the basis of expected cash flows. In addition, the Company's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Contractual maturities of financial liabilities as at 31st March 2021	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	More than 5 years	Total
Financial Liabilities					
Borrowings	267,155,130	13,985,563	30,914,951	3,731,286	315,786,931

Total	332,955,269	13,985,563	30,914,951	3,731,286	381,587,069

(D) Market risk

(i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EUR and GBP. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows.

The Company, as risk management policy, hedges foreign currency transactions to mitigate the risk exposure and reviews periodically to ensure that the results from fluctuating currency exchange rates are appropriately managed.

(ii) Price risk

The Company's exposure to equity securities price risk arises from unquoted investments held and classified in the balance sheet as Cost. The Company is not expecting high risk exposure from its investment in securities.

(E) Agricultural Risk

Cultivation of tea being an agricultural activity, there are certain specific financial risks. These financial risks arise mainly due to adverse weather conditions, logistic problems inherent to remote areas, and fluctuation of selling price of finished goods (tea) due to increase in supply/availability.

The Company manages the above financial risks in the following manner:

- Sufficient inventory levels maintained so that timely corrective action can be taken in case of adverse weather conditions.
- Slightly higher level of consumable stores are maintained in order to mitigate financial risk arising from logistics problems.
- Sufficient working-capital-facility is obtained from banks in such a way that procurement and sale of tea is not adversely affected even in times of adverse conditions.

41. CAPITAL MANAGEMENT

(a) Risk Management

The Company's objectives when managing capital are to

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- Maintain an optimal capital structure to reduce the cost of capital

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Company monitors capital on the basis of net debt to equity ratio and maturity profile of overall debt portfolio of the Company.

Net debt implies total borrowings of the Company as reduced by Cash and Cash Equivalent and Equity comprises all components attributable to the owners of the Company

The following table summarizes the Net Debt, Equity and Ratio thereof.

Subject to the provisions contained in this Draft Letter of Offer, the Abridged Letter of Offer, the Rights Entitlement Letter, the Application Form, the Articles of Association and the approval of the Designated Stock Exchange, our Board will proceed to Allot the Rights Equity Shares in the following order of priority:

- (a) Full Allotment to those Eligible Equity Shareholders who have applied for their Rights Entitlements of Rights Equity Shares either in full or in part and also to the Renouncee(s) who has or have applied for Rights Equity Shares renounced in their favour, in full or in part.
- (b) Eligible Equity Shareholders whose fractional entitlements are being ignored and Eligible Equity Shareholders with zero entitlement, would be given preference in allotment of one additional Rights Equity Share each if they apply for additional Rights Equity Shares. Allotment under this head shall be considered if there are any unsubscribed Rights Equity Shares after allotment under (a) above. If number of Rights Equity Shares required for Allotment under this head are more than the number of Rights Equity Shares available after Allotment under (a) above, the Allotment would be made on a fair and equitable basis in consultation with the Designated Stock Exchange and will not be a preferential allotment.
- (c) Allotment to the Eligible Equity Shareholders who having applied for all the Rights Equity Shares offered to them as part of this Issue, have also applied for additional Rights Equity Shares. The Allotment of such additional Rights Equity Shares will be made as far as possible on an equitable basis having due regard to the number of Equity Shares held by them on the Record Date, provided there are any unsubscribed Rights Equity Shares after making full Allotment in (a) and (b) above. The Allotment of such Rights Equity Shares will be at the sole discretion of our Board in consultation with the Designated Stock Exchange, as a part of this Issue and will not be a preferential allotment.
- (d) Allotment to Renouncees who having applied for all the Rights Equity Shares renounced in their favour, have applied for additional Rights Equity Shares provided there is surplus available after making full Allotment under (a), (b) and (c) above. The Allotment of such Rights Equity Shares will be made on a proportionate basis in consultation with the Designated Stock Exchange, as a part of this Issue and will not be a preferential allotment.
- (e) Allotment to any other person, that our Board may deem fit, provided there is surplus available after making Allotment under (a), (b), (c) and (d) above, and the decision of our Board in this regard shall be final and binding. After taking into account Allotment to be made under (a) to (d) above, if there is any unsubscribed portion, the same shall be deemed to be ‘unsubscribed’.

Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall send to the Controlling Branches, a list of the Investors who have been allocated Rights Equity Shares in this Issue, along with:

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the “automatic route”, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “government route”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the FDI Policy and FEMA. The government bodies responsible for granting foreign investment approvals are the concerned ministries/departments of the GoI and the RBI. Pursuant to the Office Memorandum dated June 5, 2017 issued by the Department of Economic Affairs, Ministry of Finance, approval for foreign investment under the FDI Policy and FEMA has been entrusted to the concerned ministries/departments.

The GoI has from time to time made policy pronouncements on FDI through press notes and press releases. The DIPP (now DPII), issued the consolidated FDI Policy by way of circular no. D/o IPP F. No. 5(1)/2017-FC-1 dated August 28, 2017 which is effective from August 28, 2017. The FDI Policy will be valid until the DIPP (now DPII) issues an updated FDI Policy. Further, one of the conditions with respect to receipt of foreign capital under the FDI route is that the respective State Governments/Union territories are to implement the FDI policy.

As per Regulation 7 of the FEM Rules, the RBI has given general permission to Indian companies to issue rights securities to non-resident shareholders including additional rights securities. Further, as per the Master Direction on Foreign Investment in India dated January 4, 2018 issued by the RBI, non-residents may, inter alia, (i) subscribe for additional securities over and above their rights entitlement; (ii) renounce the securities offered to them either in full or part thereof in favour of a person named by them; or (iii) apply for the securities renounced in their favour. Applications received from NRIs and non-residents for allotment of Rights Equity Shares shall be inter alia, subject to the conditions imposed from time to time by the RBI under the FEMA in the matter of refund of Application Money, Allotment of Rights Equity Shares and issue of Allotment advice. This Letter of Offer, Abridged Letter of Offer, Rights Entitlement Letter and Application Form shall be dispatched to non-resident Eligible Equity Shareholders at their Indian address only. If an NR or NRI Investor has specific approval from the RBI, in connection with his shareholding, he should enclose a copy of such approval with the Application. Our Board may at its absolute discretion, agree to such terms and conditions as may be stipulated by RBI while approving the allotment of Rights Equity Shares. The Rights Equity Shares purchased by non-residents shall be subject to the same conditions including restrictions in regard to the repatriation as are applicable to the original Equity Shares against which Rights Equity Shares are issued on rights basis.

Further, in accordance with press note 3 of 2020, the FDI Policy has been recently amended to state that all investments by entities incorporated in a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government of India. It is not clear from the press note whether or not an issuance of the Rights Equity Shares to Restricted Investors will also require a prior approval of the Government of India and each Investor should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required and such approval has been obtained, the Investor shall intimate our Company and the Registrar about such approval within the Issue Period.

As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue.

The Rights Entitlements, Rights Equity Shares and Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or the securities laws of any state of the United States and may not be offered or sold within the United States, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Rights Entitlements and Rights Equity Shares are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers, and sale occur. The Rights Entitlements, Rights Equity Shares and Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this prospectus. Applicants are advised to consult their legal counsel, to make their independent investigations and ensure that Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations prior to accepting any provisional allotment of Rights Equity Shares, applying for excess Rights Equity Shares or making any offer, sale, resale, pledge or other transfer of the Rights Entitlements or the Rights Equity Shares.
