2. ***Our business is substantially dependent on certain key customers from whom we derive a significant portion of our revenues. The loss of any significant customer may have a material adverse effect on our business and results of operations.***

While we are constantly striving to increase our customer base and reduce dependence on any particular customer, there is no assurance that we will be able to broaden our customer base in any future periods or that our business or results of operations will not be adversely affected by a reduction in demand or cessation of our relationship with any of our major customers. The contribution of the top five and top ten customers of our Company for the Fiscal 2021, 2020 and 2019 are as follows:

(Rs. In Lakhs)

Particulars	Fiscal 2021		Fiscal 2020		Fiscal 2019	
	Amount	In %	Amount	In %	Amount	In %
Top 5 Customer	2971.54	49.63	3635.19	45.22	3345.31	43.86
Top 10 Customers	4429.33	73.98	5312.24	66.08	4312.06	56.53

3. ***We are highly dependent on our Top 10 suppliers for uninterrupted supply of Raw-Materials. Any disruption in supply of raw materials from these suppliers will adversely affect our operations.***

We are highly dependent on Cotton Yarn and Synthetic Yarn, which are the prime raw material for Grey/Denim Textile. We procure our supply of raw materials from various suppliers depending upon the price and quality of raw materials. However, our Top 10 supplier contributes significantly to supply of raw materials. Any disruption of supply of raw materials from these suppliers will adversely affect our operations. The contributions of our top 5 and top 10 suppliers are as follows:

(Rs. In Lakhs)

Particulars	Fiscal 2021		Fiscal 2020		Fiscal 2019	
	Amount	In %	Amount	In %	Amount	In %
Top 5 Suppliers	2180.00	50.51	793.25	15.49	806.62	18.01
Top 10 Suppliers	3606.84	83.57	3373.39	65.88	1965.83	43.90

4. ***We have not entered into any long-term supply agreement for the major raw material (Cotton & Synthetic Yarn) required for manufacturing of Grey/Denim Textile. Also, volatility in the prices and non-availability of these raw materials may have an adverse impact in our business.***

Our prime raw material for manufacturing of Denim Textile is Cotton & Synthetic Yarn. We generally procure our raw material from domestic suppliers as and when it is required. In the absence of long-term agreement with our suppliers, we may not be able to meet our raw material requirement on time. Also, we believe that volatility in the prices of raw material will have an impact on all the manufacturers in the denim industry and any adverse change in the purchase price would lead to a near corresponding adjustment in the selling price as well. However, we acknowledge that we are exposed to and will have to absorb any fluctuations in the prices of raw materials partially which will affect our margins.

Also, we do not have any long-term agreement or contract for supply of Grey Fabric. We also do not have any long-term agreements or contracts for any other inputs like Chemicals & Colours, etc. used in our processing unit and consequently are exposed to price and supply fluctuations for our raw materials.

We are, to a major extent, dependent on external suppliers for our raw materials requirements and we do not have any long-term supply agreements or commitments in relation to the same or for any other raw materials used in our manufacturing process. Consequently, we are exposed to price and supply fluctuations in grey cloth and other raw materials, and these fluctuations may adversely affect our ability to obtain orders and/or to execute them in a timely manner, which would have a material adverse effect on our business, results of operations and financial condition. In case of non-availability of raw materials on favourable terms, we may have to procure the same at the terms and conditions prevalent at that point. This will result in reducing our revenues by a considerable amount due to shortage of raw material or due to inability to procure the same. Further, unfavourable terms of raw materials may also force us to reduce the scale of our operations resulting in a down-sizing of our overall business and we may have to put on hold any expansion plans and our future growth will be severely stunted.

5. ***The land on which our Factory & Registered Office is situated is not owned by us.***

Our Registered Office & Factory premises at Bhilwara and Madhya Pradesh are not owned by us. We have obtained these lands from Industrial Development Corporation Limited and State Industrial Development & Investment Corporation Limited on Lease for a period of 99 years. However, the terms of our lease agreement if not met may lead to cancellation of the Lease.

Further, our registered office is also being shared with some other group companies. As a result of having the same registered office, there may be confusion related to the receipt of documents and notices, which may further lead to miscommunications, loss of documents and conflicts of interests.

6. Our Company had negative cash flow in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth based on Restated Consolidated Financial statement:

(Rs. In Lakhs)

Particulars	30-09-2021	31-03-2021	31-03-2020	31-03-2019
Net cash from operating activities	121.39	119.47	921.97	955.16
Net Cash (used in) / from investing activities	(197.02)	(585.62)	61.33	(1,323.27)
Net Cash used in financing activities	76.81	465.43	(975.43)	366.36
Net increase/(decrease) in cash and cash equivalent	1.19	(0.71)	7.88	(1.76)

7. Our lenders have charge over our movable and immovable properties in respect of finance availed by us.

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders. For further information on the Financial Indebtedness please refer to page no. 141 of this Prospectus.

8. Changes in Technology may render our current technologies obsolete or require us to make substantial capital investments.

Modernisation and technology Upgradation is essential in our industry to reduce costs and increase productivity. With latest technology and advancement of methods and machineries, our existing technology and machineries may become obsolete or may not be upgraded timely, hampering our operations and financial conditions and we may lose our competitive edge. Although we strive to keep our technology, plant and machinery in line with the latest technological standards, we may be required to implement new technology or upgrade the machineries and other equipment's employed by us. Further, the costs in upgrading our technology and modernizing the plant and machineries are significant which could substantially affect our finances and operations.

9. We have high Working Capital requirements. Our inability to meet our working capital requirements may have a material adverse effect on our business, financial condition and results of operations.

Our business requires a significant amount of working capital which depends upon timely realization of our debtors and availability of cash. Any delays and/or defaults in customer payments could result in increase of working capital requirement for which we may have to make additional funding at high cost resulting into reduction of company's profit. Our inability to meet our working capital requirements can adversely impact our business.

10. The extent to which the Coronavirus pandemic (COVID-19) may affect our business and operations in the future is uncertain and cannot be predicted.

During the first half of calendar year 2020, COVID-19 spread to a majority of countries across the world, including India. The COVID-19 pandemic has had, and may continue to have, significant repercussions across local, national and global economies and financial markets. In particular, a number of governments and organizations have revised GDP growth forecasts for calendar year 2020 downward in response to the economic slowdown caused by the spread of COVID-19. The global impact of the COVID-19 pandemic has been rapidly evolving and public health officials and governmental authorities have responded by taking measures, such as prohibiting people from assembling in large numbers, instituting quarantines, restricting travel, issuing "stay-at-home" orders and restricting the types of businesses that may continue to operate, among many others. On March 14, 2020, India declared COVID-19 as a "notified disaster" and imposed a nationwide lockdown beginning on March 25, 2020. The lockdown has been extended periodically by varying degrees by state governments and local administrations. The lifting of the lockdown across various regions has been regulated with limited and progressive relaxations being granted for movement of goods and people in other places and calibrated re-opening of businesses and offices. Despite the lifting of the lockdown, there is significant uncertainty regarding the duration and long-term impact of the COVID-19 pandemic, as well as possible future responses by the Government, which makes it impossible for us to predict with certainty the impact that COVID-19 will have on our business and operations in the future.

We are closely monitoring the impact of COVID-19 on our financial condition, liquidity, operations, suppliers and workforce. During FY 2020-21, Company faced unprecedented challenges due to Covid-19 pandemic. During the lockdown, our unit was also closed from 25th March to 8th May 2021, and at that time there was no production or commercial activities was running and it affected our business also in respect of various overheads despite any revenue generation. Further even after the lockdown opened, the company have to pay huge overheads for the compliances and safety of employees. it also affected ROI for the respective financial year. These challenges has restricted the turnover growth for the company (company has achieved revenue from operation of only Rs. 59.87 crores in FY 2020-21 in comparison of Rs. 58.18 crores in FY 2019-20) and also profitability of the company has been impacted (profit decreased from Rs. 3.26 crores in FY 2019-20 to Rs. 2.61crores in FY 2020-21) due to higher cost. Any intensification of the COVID-19 pandemic or any future outbreak of another highly infectious or contagious disease may adversely affect our business, results of operations and financial condition.

11. *We rely on third party logistic providers, with whom we have no formal arrangements. Any disruption in our transportation arrangements or increases in transportation costs may adversely affect our business, results of operations and financial condition.*

We rely on third party logistic providers and consequently, any disruption in our transportation arrangements or increases in transportation costs may adversely affect our business, results of operations and financial condition. There are a limited number of such logistic providers and in the absence of a formal arrangement, we are exposed to fluctuations in transportation costs. Also, if the terms offered to such logistic providers by our competitors are more favourable than those offered by us, they may decline to provide their services to us and terminate their arrangements with us. We may also be affected by transport strikes, which may affect our delivery schedules. If we are unable to secure alternate transport arrangements in a timely manner and at an acceptable cost, or at all, our business, results of operations and financial condition may be adversely affected.

12. *Common Pursuits among Group Entities with our Company*

Some of Our Group Company deals in manufacturing/trading of some of the products that are similar to our Company's products. As a result, conflicts of interests may arise in allocating business opportunities amongst our Company and in circumstances where our respective interests diverge.

13. *Qualifications in Audit Report*

There were qualifications in the Audit Reports issued by the Statutory Auditor pertaining to provision for gratuity as at and for the years ended March 31, 2021, March 31, 2020 and March 31, 2019. However, the provision for the liability for gratuity has been made in the restated financial statement for the period ended September 30, 2021.

14. *We require certain approvals, licenses, registrations and permits for our business, and the failure to obtain or renew them in a timely manner may adversely affect our operations.*

Our Company requires certain statutory and regulatory registrations, licenses, permits and approvals for our business. In future, we shall be required to renew such registrations and approvals and obtain new registrations and approvals for any proposed operations, including any expansion of existing operations. While we believe that we will be able to renew or obtain such registrations and approvals, as and when required, there can be no assurance that the relevant authorities will renew or issue any such registrations or approvals in the time frame anticipated by us or at all. Failure to obtain and renew such registrations and approvals with statutory time frame attracts penal provisions. If we are unable to renew, maintain or obtain the required registrations or approvals, it may result in the interruption of our operations and may have a material adverse effect on our revenues, profits and operations and profits.

Further, certain statutory licenses and approvals which we have obtained for the purpose of carrying our business, contain terms and conditions/covenants, which are to be adhered to by our Company. In case our Company defaults in complying with the said terms and conditions/ covenants, we may be subjected to penal provisions and it may also lead to the cancellation of such licenses and approvals, which will adversely affect our business, financial conditions and results of operations. *For further details see Chapter on "Key Industry Regulations and Policies" and "Government and Other Approvals" beginning on page 90 and 167 of the Prospectus respectively.*

15. *Our Company has availed unsecured loan from parties other than bankers & financial institutions which is repayable on demand. Any demand from the lender for repayment of such unsecured loan may affect our cash flow and financial condition.*

Our Company has availed certain unsecured loan and are repayable on demand. Though our Company intends to repay the loan amount in near future, sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer to the section "*Unsecured Loans*" under "*Financial Statements as restated*" beginning on page no. 121 of this Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

16. *Our Company's manufacturing activities are labour intensive and depend on availability of skilled and unskilled labourers in large numbers. In case of unavailability of such labourers and / or inability to retain such personnel, our business operations could be affected.*

Our operations and performance are labour intensive and depends on our ability to identify, attract and retain both skilled and unskilled labour. In case such labour is unavailable or we are unable to identify and retain such labourers our business could be adversely affected. Further, there are instances where we need to hire additional contract labour, either for specialised jobs or during periods of high customer orders. We have not entered into any agreement for hiring additional labourers and thus availability of appropriately skilled labour cannot be guaranteed. Any failure to hire the appropriate labour may impact the operations and impair our client relations.

17. *Volatility in the prices of fabrics, colours & chemicals and other raw materials, may adversely impact our total cost of goods sold.*

Our Company mainly purchases Yarn (cotton and synthetic) and Finished Fabrics from various suppliers for our processing operations. Also, processing requires colours and chemicals which are used for dyeing and printing. We are

therefore, entirely dependent on external suppliers for the raw materials which constitutes a majority of the total cost of raw materials for our processing operations. The prices of Grey Fabric depend largely on the market prices of the various yarns and cotton, which are the raw material for manufacture of grey fabric and any increase in prices of raw material is generally passed on to our customers. However, any adverse fluctuations in the price which we may not be able to pass on to our customers could have a material adverse effect on our total cost of production. Further, any material shortage or interruption in the supply or decrease in quality of these raw materials could also adversely impact our business operations.

18. A few trademarks  and  of our Company have not been registered. Consequently, we may not be able to effectively protect our intellectual property.

We have filed applications for registration of our company trademarks, which has been objected under section 11(1) of the Trade Marks Act, 1999. The reply to the examination report is awaited from the company. 19. We cannot assure you that we will be able to secure adequate financing in future on acceptable terms, in time, or at all.

We may require additional funds in connection with future business expansion and development initiatives. In addition to our existing available funds, we may need additional sources of funding to meet our future requirements, which may include entering into new debt facilities with lending institutions or raising additional debt in the capital markets. If we decide to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants. Such financings could cause our debt-to-equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of any of our business development plans and this may affect our business and future results of operations.

20. Our Directors and Promoter Group may have interest in our Company, other than reimbursement of expenses incurred or remuneration.

Our Directors and Promoter Group may be deemed to be interested to the extent of the Equity Shares held by them, or their relatives or our Group Entities, and benefits deriving from their directorship in our Company. Further, the Persons in control of our Promoter are interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Entities. For further details, please refer to the chapters titled “*Our Business*” and “*Our Promoters, Promoter’s Group and Group Companies*”, beginning on pages 74 and 113 respectively and “*Annexure IX – Related Party Transactions under Restated Financial Statement*” beginning on page 139 of the Prospectus.

Our Company needs to comply with many varied laws/regulations due to the nature of business that we conduct. These laws are subject to change at the discretion of the Government. Our Company may be subject to increased expenses to comply with such changes in the applicable laws which may affect the flow of our operations. Failure to do so may also induce our Company to incur penalties.

22. Strikes, Work stoppages or increased wage demands by our employees or any other kind of disputes with our employees could adversely affect our business and results of operations.

Our Company is exposed to strikes and other industrial actions. As on the date of this prospectus, our Company has 261 full-time employees including workers at our manufacturing units. At present, we enjoy a good relationship with our employees. However, there can be no assurance that we may not experience disruptions in our operations due to disputes or other problems with our work force such as strikes, work stoppages or increased wage demands that may adversely affect our business and results of operations.

23. Our success depends heavily upon our Promoters and Directors for their continuing services, strategic guidance and financial support.

Our success depends heavily upon the continuing services of Promoters & Directors who are the natural person in control of our Company. Our Promoters have a vast experience in the field of textile business. They have established cordial relations with various customers and suppliers over the past several years, which have immensely benefitted our Company’s current customer and supplier relations. We believe that our relation with our Promoters, who have rich experience the industry, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Further, our Promoters are also part of certain other ventures and may continue to do so. If they divert their attention to such other concerns, we may not be able to function as efficiently and profitably as before. We may have to incur additional costs to replace the services of our Promoters or we may not be able to do so

at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

Further, we also depend significantly on our directors for executing their day-to-day activities. If our Promoters / Directors or any member of the senior management team is unable or unwilling to continue in his present position, we may not be able to replace him easily or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

24. *Our Company has entered into certain related party transactions and may continue to do so in the future.*

Our Company has entered into related party transactions with our Promoters, Directors, Group Entities and their relatives. Our Total revenue from operations includes related party transaction from group company to the extent of 6.59% in FY 2020-21, 4.55% in FY 2019-20 and 6.16% in FY 2018-19. While our Company believes that all such transactions have been conducted on the arm's length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that our Company will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details, please refer to "**Annexure IX – Related Party Transactions under Restated Financial Statement**" on page no. 139 of this Prospectus.

25. *Within the parameters as mentioned in the chapter titled "Objects of this Issue" beginning on page 55 of this prospectus, our Company's management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.*

We intend to use entire Issue Proceeds towards meeting the working capital requirement and general corporate purpose. We intend to deploy the Net Issue Proceeds in financial year 2021-22 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled "**Objects of the Issue**" beginning on page 55 of this prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company's Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled "**Objects of the Issue**" beginning on page 55 of this prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors and the Audit Committee will monitor the proceeds of this Issue.

26. *If we are unable to manage our growth effectively or if our estimates or assumptions used in developing our strategic plan are inaccurate or we are unable to execute our strategic plan effectively, our business and prospects may be materially and adversely affected.*

Our revenue and our business operations have grown in recent years. Although we plan to continue to expand our scale of operations, we may not be able to sustain these rates of growth in future periods due to a number of factors, including, among others, our execution capability, our ability to retain, maintain & enter into new supplier MOUs / agreements, our ability to maintain customer satisfaction, our ability to mobilise sufficient working capital, macroeconomic factors beyond our control such as decline in global economic conditions, competition with other players in the organized and unorganized segments, the greater difficulty of growing at sustained rates from a larger revenue base, our inability to control our expenses and the availability of resources for our growth. There can be no assurance that we will not suffer from capital constraints, operational difficulties or difficulties in expanding existing business operations.

Our development and expansion strategies will require substantial managerial efforts and skills and the incurrence of additional expenditures may subject us to new or increased risks. We may not be able to efficiently or effectively implement our growth strategies or manage the growth of our operations, and any failure to do so may limit future growth and have an adverse effect on our business. Further, our strategy to improve our debt – equity ratio may not materialise in the manner we intend to, and we may be required to obtain additional debt to meet immediate capital requirements, resulting in unfavourable ratios.

Also, the fund requirement and deployment for our strategies are based purely on management estimates and assumptions considering the current market scenario and are subject to revision in the light of changes in external circumstances or costs. If we are unsuccessful in executing our strategic plan, or if the underlying estimates or assumptions used to develop our strategic plan are materially inaccurate, our business and financial condition would have an adverse impact.

27. *The Qualification and Experience Proof of some of our Promoters & Directors may not be available.*

Our Promoters and Directors are qualified and are highly experienced to run the day-to-day affairs of the Company. However, the Qualification and Experience Proof (as mentioned in the Prospectus) of some of our Promoters & Directors may not be available.

28. *Our Company's insurance coverage may not be adequate to protect us against all material hazards which may result in disruptions of operations/monetary loss on account of stoppage of work.*

We procure insurance for our operations against third-party liability, manufacturing risks, stock insurance at warehouse, and employees' health. Our existing insurance coverage may be insufficient to cover all the risks associated with our business and operations and generally do not cover losses from business interruption. We also cannot assure you that we will renew our existing insurance policies in a timely manner or at all. In the case of an uninsured loss, a loss in excess of insured limits or a loss for which we do not have coverage or coverage is prohibitively expensive, including those caused by natural disasters and other events beyond our control, we may be required to pay for losses, damages and liabilities out of our own funds, which could materially and adversely affect our business, financial condition and results of operations. Even if our insurance coverage is adequate to cover our direct losses, we may not be able to take remedial actions or other appropriate measures. Furthermore, our claim records may affect the premiums which insurance companies may charge us in the future.

29. *We are dependent on a number of key managerial personnel, including our senior management, and the loss of or our inability to attract or retain such persons with specialized technical know-how could adversely affect our business, results of operations, cash flows and financial condition.*

Our performance depends largely on the efforts and abilities of our senior management and other key managerial personnel, including our present officers who have specialized technical know-how. The inputs and experience of our senior management and key managerial personnel are valuable for the development of our business and operations strategy. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. Our Company does not maintain any director's and officer's insurance policy or any keyman insurance policy. The loss of the services of such persons could have an adverse effect on our business, results of operations, cash flows and financial condition.

30. *Upon completion of the Issue, our Promoters / Promoter Group may continue to retain significant control, which will allow them to influence the outcome of matters submitted to the shareholders for approval.*

After completion of the Issue, our Promoters and Promoter Group will collectively own 73.31% of the total post issue Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring any strategic decision favourable to the Company or effecting a change in control of our Company for the betterment of the stakeholders.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

31. *Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.*

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our operational standards and processes, and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected.

32. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

33. *Industry information included in this prospectus has been derived from industry reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed

and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this prospectus.

34. *The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.*

Since the Issue size is less than Rs.10,000 Lakhs, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our finances.

35. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see *“Dividend Policy”* on page 120 of this prospectus.

36. *Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.*

Any future equity issuance by our Company may lead to the dilution of investors’ shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

37. *We face competition from Organized, Unorganized as well as international players.*

Our industry is highly unorganized and we face competition from organized, unorganized and international players. We face competition from various domestic and international players. Internationally there is competition from Asian peers such as China, Bangladesh and Vietnam who are lower cost manufacturers of denims and also enjoy more favourable duty structure on exports. Domestically, we face competition against organised as well as unorganised players. Excess Competition in certain markets may have a material adverse effect on our operations.

38. *The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue price is based on numerous factors. For further information, see the chapter titled *“Basis for Issue Price”* beginning on page no. 60 of this prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

39. *Managing employee benefit pressures in India may prevent us from sustaining our competitive advantage which could adversely affect our business prospects and future financial performance.*

Employee benefits represent a major expense for us and our ability to maintain or reduce such costs is critical for our business operations. We may be required to increase employee compensation levels to remain competitive and manage attrition, and consequently we may need to increase the prices of our products and services. An increase in wages/ salaries paid to our employees may result in a material adverse effect on our profits in the event that we are unable to pass on such

increased expenditure to our users or customers without losing their business to our competitors. Likewise, if we are unable to sustain or increase the number of employees as necessary to meet growing demand, our business, financial condition and results of operations could be adversely affected.

40. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.*

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, makes the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

41. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange(s) which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

EXTERNAL RISK FACTORS

1. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

2. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs. 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

3. *Public companies in India, including our Company, shall be required to prepare financial statements under Indian Accounting Standards.*

Our Company currently prepares its annual financial statements under Indian GAAP. The MCA, Government of India, has, through a notification dated February 16, 2015, set out the Indian Accounting Standards (Ind AS) and the timelines for their implementation. In accordance with such notification, our Company is required to prepare its financial statements in accordance with Ind AS. Ind AS is different in many aspects from Indian GAAP under which our financial statements are currently prepared. Accordingly, the degree to which the restated financial statements included in the prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in the prospectus should accordingly be limited.

4. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- Goods and Service

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

5. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

6. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the prospectus.*

While facts and other statistics in the prospectus relating to India, the Indian economy and the industry in which we operate has been based on various web site data and IBEF that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “*Industry Overview*” beginning on page 59 of this prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

7. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

8. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

9. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

10. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

11. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

12. *Terrorist attacks, civil unrest and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, and other countries and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

As per RBI's revised estimates of July 2021, the real GDP growth of the country is estimated at 21.4% for the first quarter of FY22. The increase in the tax collection, along with government's budget support to states, strengthened the overall growth of the Indian economy.

Widespread Vaccine Coverage

- Vaccination has had a crucial role in reducing the number of deaths, restoring confidence in the economy, and decreasing the effects of the second wave on India's economy.

- Between May 2021 and January 2022, the daily vaccination rate on average has grown fourfold from 1.93 million to 7.54 million.

Sector Reforms:

- Instead of relying on demand management, India has been concentrating on reforms on the supply-side, such as:
 - Deregulation of numerous sectors
 - Simplification of processes
 - Removal of legacy issues like 'retrospective tax'
 - Privatisation

- These are a few of the major reforms in different sectors:
 - Over a four-year period from 2021-22 to 2024-25, the Central Government's key assets have a total monetisation potential of Rs. 6 lakh crore (US\$ 80.39 billion).
 - In the telecom industry, 100% FDI via the automated route is permissible.
 - Setting up of Production Linked Incentive (PLI) schemes for 13 sectors including Automobile, Telecom and pharmaceuticals drugs.
 - Increasing private sector engagement in conventional satellite communication and remote sensing industries by liberalising them.
 - The automatic route increased FDI in the defence sector by 74%, while the government route increased it by 100%.
 - Deposit insurance has been enhanced per depositor per bank from 'Rs. 1 lakh (US\$ 1339.30)' to 'Rs. 5 lakh (US\$ 6696.51)'. As a result, 98.1 % accounts were completely secured by the end of March 2021, and 50.9 % deposits were guaranteed.

Current State of the Economy:

- Following a contraction of 7.3% in 2020-21, the Indian economy is expected to grow by 9.2% in real terms in 2021-22 (according to initial advanced projections).
- GDP is expected to grow in real terms by 8-8.5% in 2022-23.
- The coming year is expected to see an increase in private sector investment with the financial system in strong shape to support the country's economic recovery.
- The projection is equivalent to the World Bank's and Asian Development Bank's recent predictions of 8.7% and 7.5% real GDP growth for 2022-23, respectively.
- According to the IMF's latest World Economic Outlook projections, India's real GDP will grow at 9% in 2021-22 and 2022-23, and 7.1% in 2023-2024, making it the world's fastest growing major economy for all three years.
- In 2021-22, agriculture and allied industries are predicted to grow by 3.9%, industry by 11.8%, and services by 8.2%.
- In 2021-22, demand for consumption is expected to increase by 7.0%, Gross Fixed Capital Formation (GFCF) by 15%, exports by 16.5%, and imports by 29.4%.
- Indicators of macroeconomic stability imply that the Indian economy is well positioned to meet the challenges of 2022-23.
- In 2022-23, a combination of large foreign exchange reserves, continued foreign direct investment, and expanding export revenues will provide an effective cushion against a potential global liquidity withdrawal.
- The "second wave's" economic effect was significantly less than the full lockdown in 2020-21, but the health consequences were far more severe.
- The Indian government's unique reaction included safety-nets to soften the impact on vulnerable sectors of society and the business sector, a major increase in capital investment to promote growth, and supply-side reforms to ensure long-term expansion.
- In a climate of severe unpredictability, the government's flexible and multi-layered reaction is based in part of an "Agile" framework that employs feedback loops and the usage of 80 High Frequency Indicators (HFIs).

- Capex increased by 13.5% (YoY) from April to November 2021, with a heavy focus on infrastructure-intensive sectors.
- Continued tax collection and a targeted expenditure approach has helped to keep the budget deficit for April to November 2021 at 46.2% of BE.
- The Central Government debt has increased from 49.1% of GDP in 2019-20 to 59.3% of GDP in 2020-21 as an outcome of increased borrowings for COVID-19, but it is expected to decline as the economy recovers.

External Sectors

- After China, Japan, and Switzerland, India was the world's fourth largest FX reserve holding as of the end of November 2021.

- Wholesale inflation, as measured by the Wholesale Price Index (WPI), increased to 12.5% in 2021-22. (April to December). This has been attributed to: Previous year's low base, increase in economic activity, sharp rise in the price of crude oil and other imported commodities on the worldwide market, and high freight costs.
- Difference between CPI-C and WPI Inflation: The difference rose to 9.6% points in May 2020. However, this year's disparity reversed, with retail inflation sliding 8.0% points behind wholesale inflation in December 2021.
- This difference can be explained by factors such as: Variations related to the base effect, differences in the scope and coverage of the two indices, price collections, items covered, commodity weights, and the WPI being more sensitive to cost-push inflation driven by imported inputs.
- As the base impact in WPI gradually fades, the disparity between CPI-C and WPI is likely to shrink.

OVERVIEW OF INDIAN TEXTILE INDUSTRY

Introduction

India's textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital-intensive sophisticated mills sector on the other end. The decentralised power looms/ hosiery and knitting sector forms the largest component in the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India's textiles industry has a capacity to produce wide variety of products suitable for different market segments, both within India and across the world.

Market Size

India's Textiles industry has around 4.5 crore employed workers including 35.22 lakh handloom workers across the country. The industry contributed 7% to the industry output (by value) in 2018-19. The Indian textiles and apparel industry contributed 2% to the GDP, 12% to export earnings and held 5% of the global trade in textiles and apparel in 2018-19. Exports of textiles (RMG of all textiles, cotton yarns/fabs./made-ups/handloom products, man-made yarns/fabs./made-ups, handicrafts excl. handmade carpets, carpets and jute mfg. including floor coverings) stood at US\$ 22.89 billion between April 2021 and October 2021.

The Indian textiles market is expected to be worth >US\$ 209 billion by 2029. Cotton production is expected to reach 37.10 million bales and consumption is expected to reach 114 million bales in FY21—13% growth over the previous year. The production of raw cotton in India is estimated to have reached 35.4 million bales in FY20[^]. During FY19, production of fibre in India stood at 1.44 million tonnes (MT) and reached 2.40 MT in FY21 (till January 2021), while that for yarn, the production stood at 4,762 million kgs during same period. India's home textile exports grew at a healthy rate of 9% in FY21 despite the pandemic.

Investments and Key Developments

The textiles sector has witnessed a spurt in investment during the last five years. The industry (including dyed and printed) attracted Foreign Direct Investment (FDI) worth US\$ 3.75 billion from April 2000 to March 2021. In May 2021, Indo Count Industries Ltd. (ICIL), announced an investment of Rs. 200 crore (US\$ 26.9 million) to expand its production capacity. The production-linked incentive (PLI) scheme for man-made fibre and technical textiles will help boost manufacturing, increase exports and attract investments into the sector.

Companies in home textile are using technology to optimise the value chain. For example, in October 2021, Welspun India introduced Wel-Trak 2.0—an upgraded, patented end-to-end traceability technology—to track textile raw materials throughout the supply chain. Home textile companies in India are also leveraging strategic partnerships to strengthen their business operations and foothold in the country.

In October 2021, Welspun India collaborated with DuPont Biomaterials to introduce a home textile range and strengthen the company's sustainable textiles business.

Government is supporting the sector through funding and machinery sponsoring. Top players in the sector are attaining sustainability in their products by manufacturing textiles that use natural recyclable materials. The future for the Indian textiles industry looks promising, buoyed by strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with the entry of several international players like Marks & Spencer, Guess and Next into the Indian market. High economic growth has resulted in higher disposable income. This has led to rise in demand for products creating a huge domestic market.

OUR PRODUCT PORTFOLIO

Presently we are dealing in:

1. Finished Fabrics:

- *Trading of Finished Fabrics*
- *Conversion of Grey Fabric into Finished Fabrics on outsourcing contract basis*

2. Grey Fabrics

- *Manufacturing of Grey Fabrics from Dyed Yarn (at our in-house manufacturing facility in Bhilwara)*

Grey fabric is also known as Greige fabric and the term grey does not indicate the colour of the fabric but the finish. This fabric is unprocessed or unfinished which hasn't been dyed, bleached and processed. It can be used in the making of upholstery, home linen, clothes, garments and more. Another common term for grey fabric is raw fabric.

- *Trading of Grey Fabrics*

3. Job Weaving

- *Manufacturing of Yarn to Grey Fabrics on Job Contract basis (here only weaving is done at our in-house manufacturing facility)*

4. Yarn

- *Trading of Yarn*

Proposed Products (Backward and Forward Integration):

The below mentioned activities are proposed at our new manufacturing facility situated at Neemuch, Madhya Pradesh

5. Indigo Yarn dyeing, sizing & Finished Denim Fabric:

- *Manufacturing of Denim Fabric*

Denim is a type of cotton twill textile known for its use in blue jeans and other clothing. Denim fabric became popular at first among people of western countries and then gradually all over the world. Now fashion is incomplete without denim. But, consumer's need for new products is unlimited. So, to meet this essential demand, the fabric designers and manufacturers were obliged to produce different types of denim at present, multiple derivatives of denim are available. Also new types of denim products are being developed. The diversification of denim has gone so far that some denims are event based. They are being produced on plain-based weave design. Denim is comparatively heavy fabric composed of higher linear density yarn both in warp and weft. This fabric is not very soft to handle. Different fancy yarn-slub yarn, thick-thin yarns are used in the diversification of denim. Lycra (elastomeric fiber) yarn is also introduced in the diversified denim. Diversification is also done by the change of Ends per Inch (EPI), Picks per Inch (PPI) and count. Different yarn count may be used in consecutive insertion for diversification. For increasing the agreed level of denim throughout the world, diversification is the most important factor. Denim is very popular among the teenagers as well as older people. Denim's popularity is also on the rise. It is stronger and more expensive than jeans, and though the two fabrics were very similar in some ways, they did have one major difference: denim was made of one coloured thread and one white thread; jean was woven of two threads of the same colour. Denim is no longer a cotton product. Denim comes with either polyamide, lycra, polypropylene or with polyester and especial bonding with a 100% nylon net for a more active look. Two way stretch fabrics and special coatings or rubberized effects continue to be a strong trend.

OUR BUSINESS PROCESS

1. Manufacturing Facility at Bhilwara, Rajasthan

- **Procurement of Dyed Yarn / Un-dyed Yarn**

The raw material required by this facility is Dyed yarn/ Un-Dyed yarn, which is purchased through agents or directly through textile mills located in nearby regions of the factory. The industrial town of Bhilwara is a famous hub for textiles in India. There are numerous spindles and rotors in the spinning mills in the district.

- **Warping**

Warping is the preparation of yarn to weave fabric. The warp yarn is required to be fed into a sheet form to the weaving machines. At warping, the individual cones are put into the creel (the number of cones depends upon fabric construction) and yarn from individual cones is pulled together in sheet form, and are parallelly wound

onto a barrel called warping beams (for Direct warping) or on weaving beams (for Sectional Warping). The objective of warping process is to convert the yarn packages into a warper's beam having desired width and containing requisite number of ends.

- **Drawing-in**

The drawing-in process comes just after the preparation of the weaver's beam. The weaver's beam is obtained from sectional warping or sizing. The drawing-in process mainly consists of two processes. The first process is called drafting and the second process is called denting. Drafting is the process of passing the end through the eye of heald wire or harness according to the draft (sequence of drafting the ends) is called drafting. Denting is the process of passing the ends through the dents of reed according to the denting order of the fabric to be woven.

- **Beam Gaiting or Knotting on Loom**

The drawn weavers' beams are fixed on weaving machines, threads are tied and heald shafts are coupled. This operation is called Beam Gaiting. If undrawn warp threads are directly knotted to the threads of finished beams, it is called Knotting. These operations are essential because normally weavers beam can carry only certain length of warp sheet on it and when so woven, whole length is converted to the fabric by weaving machine. Further warp length is required to be fed which can be done by knotting or gaiting other beams on weaving machine.

- **Weaving**

Weaving is interlacing two sets of yarns, i.e., warp and weft yarns and making it into fabric. One set is called warp thread which is in sheet form, the other one is called weft thread which is inserted between two layers of warp sheet by means of a suitable carrier i.e., Shuttle, Projectile, Rapier, Air current, Water current, etc.

The different types of technologies available for weaving machines are briefly explained as below:

- Conventional Shuttle Weaving System by Ordinary Looms or Automatic Looms.
- Shuttle less Weaving System by Airjet /Waterjet/Rapier/Projectile

- At Bhilwara we have Airjet Looms for weaving process :-

These types of looms adopt the latest development in Weaving Technology where weft insertion is done with the help of compressed air. A very high weft insertion rate up to 1800 metre per minute is achieved. Compared to rapier and projectile looms, these looms are less versatile but are economical and are used in mass textile production unit like denim.

- **Grey Fabrics**

The finally woven fabric or Grey Fabric, as it is popularly called, wound on a cloth roll is taken out from weaving machines at certain intervals and checked on inspection machines for possibilities of any weaving fault. If such faults are seen anywhere in fabric during inspection, certain corrective steps are taken at weaving, warping, sizing, etc. so that they can be minimized in subsequent product. This is a quality control exercise.

2. Manufacturing Facilities at Neemuch, Madhya Pradesh (yet to be operationalized)

Our Company is setting up a project in the state of Madhya Pradesh, which is both the backward and forward integration of its existing business.

- **Procurement of Yarn**

The raw material required by the company is Yarn, which is purchased through agents or directly through textile mills located in nearby regions of the factory.

- **Warping**

Warping is the preparation of yarn to weave fabric. The warp yarn is required to be fed into a sheet form to the weaving machines. At warping, the individual cones are put into the creel (the number of cones depends upon fabric construction) and yarn from individual cones is pulled together in sheet form, and are parallelly wound onto a barrel called warping beams (for Direct warping) or on weaving beams (for Sectional Warping). The objective of warping process is to convert the yarn packages into a warper's beam having desired width and containing requisite number of ends.

- **Indigo Dying & Sizing of yarn in Set/ Beam to Beam Position**

The dyeing for Denim Fabric happens at the sizing stage. Generally, there are two most popular methods of dyeing Denim Fabric. They are:

- Rope Dyeing**
- Sheet Dyeing**

A company can adopt any of the methods. In countries like India Sheet Dyeing Method is commonly used for manufacture of its Denim Fabrics, which has following advantages over Rope Dyeing Method:

- The technology is less capital intensive.
- The technology is a proven one.
- The cost of production is lower.
- The process time is lower.
- The Sheet Dyeing machines are very easy to operate.
- The only defect in Sheet dyeing is that there is a problem of center to selvedge shade variation.
- And that's we are also adopting sheet Dyeing process in our Unit

Sheet Dyeing Process

This process eliminates a few intermediate processes of the rope dyeing. The yarn sheet is washed with chemicals such as caustic and washing soda and after squeezing the excess water; the yarn sheet is allowed to pass through Dyeing Troughs one time for oxidation and development of dyed yarn. After dyeing, the dyed yarn is washed again with fresh water for two-three times and finally squeezed before allowing it to pass through six drying cylinders. The dyed yarn enters the starching device and sizing is done. After sizing, the sized warp beam goes for weaving. After weaving, the woven Denim Fabrics goes for various finishing processes consisting of brushing, singeing, washing, impregnation for dressing and drying. Brushing and singeing should eliminate impurities and help to even the surface of the fabric. Dressing regulates the hand and rigidity of the fabric while compressive shrinking regulates its dimensional stability.

A company can adopt any of the methods. In countries like India Sheet Dyeing Method is commonly used for manufacture of its Denim Fabrics, which has following advantages over Rope Dyeing Method:

It is a preparatory process of weaving denim fabric that comes after warping. It is a very important and critical preparatory process. The object of Sizing is to improve the strength of yarn by chemically binding the fibres with each other and also improve upon its friction resistance capacity by chemically coating the surface of yarn/fibres. The quality of the sizing process directly influences the performance of the loom and the quality of the fabric to be woven. In this process, the warp sheet gets immersed in the paste of adhesive and binder, then the warp is squeezed properly to eliminate the excess amount of adhesive. Now the warp is dried and the ends are separated from each other. After this the warp ends are wound on the weaver's beam. Weaver's beam will be transferred to Bhilwara Unit for further weaving process and after the Weaving process, Gray Fabric again will be transferred to Neemuch Unit for final finish of Denim and cotton fabric.

- **Finishing**

- **Denim Fabric**

Denim Fabrics is then finished by either wet finishing machine or foam finishing machine. The Fabric also be sent for Singeing or other specific machines as per customer requirement. Finishing of grey denim fabric normally carried out after weaving. It takes an important role in fabric properties, appearance, softness and residual fabric shrinkage. The finishing of denim fabric is carried out for several purposes. Finishing of denim fabric can be varied according to the specific requirement of customer. The finishing process may vary from harsh hand (loom state), soft hand (desizing) and sulphur over dyeing.

Another fashion trend of denim finishing is soft or washed down denim in place of stiff and harsh denim. To achieve the soft feel in finished denim fabric, the fabric is subject to a desizing and washing processes. The range normally consisting of a desize saturator, a steamer and several wash boxes. The processes, in most of the cases are tied with the brushing and singeing and other operations.

- **Dispatch/Delivery**

Rolls and sets so formed and packed as per buyers' requirements are then sent for final despatches.

Threat:

- **Prevalent over-capacity in domestic denim industry pressurises realisations**

The denim industry has witnessed significant cyclicity in the past, wherein there have been periods of excess capacity in the market as well as periods with tight demand-supply situations. Over the last four to five years, denim demand has increased steadily and several Indian denim players have increased their capacity under the prevailing government incentive scheme. However, with several capacity additions in the recent past, denim supply has exceeded the demand growth, exposing our Company to an over-supply situation in the domestic market

International Commercial Terms (“Incoterms”)

Incoterms are standard trade definitions most commonly used in international sales contracts. Devised and published by the International Chamber of Commerce (“ICC”), they are at the heart of world trade. ICC introduced the first version of Incoterms in 1936. Most contracts made after January 01, 2000 will refer to the latest edition of Incoterms, which came into force on that date. The correct reference is “Incoterms 2000”. Unless the parties decide otherwise, earlier versions of Incoterms - like Incoterms1990 - are still binding if incorporated in contracts that are unfulfilled and are dated before January 01, 2000. The latest version of Incoterms is designed to bring Incoterms in line with the latest developments in commercial practice. Correct use of Incoterms goes a long way to providing the legal certainty upon which mutual confidence between business partners must be based. Among the best-known Incoterms are EXW (Ex works), FOB (Free on Board), CIF (Cost, Insurance and Freight), DDU (Delivered Duty Unpaid), and CPT (Carriage Paid To).

Phased implementation of Unified Payments Interface (UPI)

SEBI has issued the various UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by Retail Individual Investors through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Investor had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by Retail Individual Investors through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days. For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Managers.
