

Trade issues with India will be resolved soon, says Iran minister

FE BUREAU New Delhi, June 9 THE INFRASTRUCTURE AND related issues being faced by New Delhi while doing trade with Tehran will be resolved soon, Iran's foreign minister Hossein Amir-Abdollahian said on Thursday, as he called for greater bilateral engagement not just in trade but in all other critical areas.

Iranian foreign minister Hossein Amir-Abdollahian at an interactive session in Mumbai on Thursday

from Islamic nations, including Iran. At an interactive session with the Indian trade community in Mumbai on Thursday, organised by the Federa-

tion of Indian Export Organisations (FIEO) and UCO Bank, the minister also encouraged more Indian investments in the strategically-important Chabahar port in Iran. "The economies of India and Iran do not compete with each other; rather they complement each other," Amir-Abdollahian said. He also said that a delegation from Iran will soon visit India to take forward the trade engagement between the two countries. India-Iran trade dropped substantially after the western sanctions against Tehran hit bilateral commerce. The bilateral trade stood at just about \$2 billion in FY22. FIEO's regional chairman Nandkishor Kagliwal called for efforts to "to explore traditional mechanisms of trade like barter trade, so as to defeat the implication of sanctions". He said there is a strong need for political negotiations at the global level where "(western) sanctions on Iran may either be relaxed to some extent or an explicit interpretation of narrow exemption on Chabahar port may be rolled out by the US". India has been developing two terminals at the Chabahar port and under an agreement signed with Iran, it would run the terminals for 10 years.

EMIs to go up as banks spike lending rates

Other banks are set to increase their RLLR in the coming days. Banks are expected to jack up MCLR in the wake of the second repo rate hike in the last one-and-a-half months and the rise in cost of funds for banks. Banks which are offering repo-linked lending rate will have to hike the interest rates by another 50 bps. As per an October 2019 circular from RBI, banks linked their retail loans to external benchmark lending rates (EBLR). As a result, most banks have adopted the repo rate as their benchmark. As banks borrow money from the RBI at the repo rate, any change in the repo rate affects the lending rate of banks. MCLR-linked loans had the largest share (53.1%) of the loan portfolio of banks as of December 2021. The share of EBLR loans in total advances was 39.2% in December 2021, according to the RBI. On May 4, the RBI jacked up the repo rate, the main policy rate, by 40 bps to 4.40% and the cash reserve ratio (CRR) by 50 bps to 4.50% to bring down the elevated inflation and tackle the impact of geopolitical tensions. Banks had then raised RLLR by 40 bps. Analysts now expect another repo rate hike in the August monetary policy review.

Das called on even well-established firms to adopt technology solutions if they wish to remain competitive. At a time when there is almost a real-time assessment of customer needs, Indian businesses must gear up to make the right investments sooner than later. "I believe the pandemic-induced changes in strategy, management, operations and priorities are going to stay. Therefore, the success of Indian entrepreneurs will depend on how quickly and efficiently they are able to make necessary adjustments in their business models," the governor said. "Hence, it is not permissible for external communications and the need for lawful monitoring, interceptions and the possibility of threats to national security do not arise at all." Das made a case for businesses to follow prudent accounting practices and provide transparent disclosures. "Sufficient information should be made available to the market participants to enable them to make informed judgments about the health and viability of a business entity. Creative and aggressive accounting techniques and policies tend to overstate financial strength and would be detrimental to the long term sustainability of a business," he said. The board of directors and the audit committee should ensure that the integrity of a company's financial statements is not compromised in any manner. Entities with robust corporate governance and high transparency get rewarded by the investors with higher valuation metrics and are also able to raise capital at a much cheaper cost, Das said. Start-ups should assess build-up of risks: Das

In the last few years, institutions like the Infrastructure Leasing & Financial Services (IL&FS) group, Yes Bank and Dewan Housing Finance Corporation (DHFL) have seen regulatory intervention following bouts of aggressive and risky lending practices.
