Share Reservation Minimum 5% to the Market Maker Minimum 50% of the net issue to public to RII

These equity shares are proposed to be listed on the **SME Platform of BSE Limited (“BSE SME”)** and the Designated Stock Exchange will be **BSE Limited (“BSE”)**.

OFS: Offer for Sale

Details of OFS by Promoter(s)/Promoter Group/Other Selling Shareholders - NIL –

PRICE BAND, MINIMUM BID LOT & INDICATIVE TIMELINES

Price Band - Fixed Price Issue	₹ 15/- Per Equity Share of Face Value of ₹ 10/- Each
Minimum Bid Lot Size	8,000 Equity Shares
Bid/Offer Open On	September 20, 2022
Bid/Closes Open On	September 22, 2022
Finalisation of Basis of Allotment	September 27, 2022
Initiation of Refunds	September 28, 2022
Credit of Equity Shares to Demat accounts of Allottees	September 29, 2022
Commencement of trading of Equity Shares	September 30, 2022

Details of WACA of all shares transacted over the trailing eighteen months from the date of Prospectus

Period	Weighted Average Cost of Acquisition (in ₹)	Upper End of the Price Band is 'X' times the WACA	Range of acquisition price Lowest Price- Highest Price (in ₹)
Trailing Eighteen Month from the date of Prospectus	NOT APPLICABLE AS THE ENTIRE ISSUE CONSTITUTES FRESH ISSUE OF EQUITY SHARES		

WACA: Weighted Average Cost of Acquisition shall be calculated on fully diluted basis for the trailing eighteen months from the date of Prospectus.

RISK IN RELATION TO THE FIRST ISSUE

This being the first issue of the issuer, there has been no formal market for the securities of the issuer. The face value of the equity shares is ₹10/- each and the issue price is 1.5 times of face value of the equity share. The issue price should not be taken to be indicative of the market price of the equity shares after the equity shares are listed. No assurance can be given regarding an active or sustained trading in the equity shares of our company or regarding the price at which the equity shares will be traded after listing.

GENERAL RISKS

Investment in equity and equity-related securities involves a degree of risk and investors should not invest any funds in this offer unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this offering. For taking an investment decision, investors must rely on their own examination of the issuer and the offer including the risks involved. The securities have not been recommended or approved by the Securities and Exchange Board of India (SEBI) nor does SEBI guarantee the accuracy or adequacy of this document. Specific attention of investors is invited to the statement of "Risk factors" beginning on page no. 9 of this form.

PROCEDURE

If you wish to know about processes and procedures applicable to this issue, you may request for a copy of the Prospectus and/or the General Information Document (GID) from the Lead Manager or download it from the websites of the Stock Exchanges i.e., www.bseindia.com and the LM (www.finshoregroup.com).

PROMOTERS OF ISSUER COMPANY

Sr. No.	Name	Individual/ Corporate	Experience & Educational Qualification
1.	Mr. Anand Kumar Seethala	Individual	Mr. Anand Kumar Seethala , aged 48 years, is the Managing Director of our Company. He has been on the Board of Directors of our Company since its inception. He holds a bachelor’s degree of Arts in Sociology from Dr. BR Ambedkar University Distance Education Centre Railway Degree College, Hyderabad. He has more than 28 years of experience in the field of Software development. He is an embedded hardware visionary, investor and promoter and founder of Containe Technologies Limited.
2.	Mrs. Botcha Bhavani	Individual	Mrs. Botcha Bhavani , aged 48 years, is the Whole Time Director of our Company. She has been on the Board of Directors of our Company since its inception. She holds a Master’s degree in Arts in Telugu from Andhra University and Telugu Pandit from Institute of Advanced Study. She has worked as a School Assistant for 5 years in Govt High School, Education Department of Government of Andhra Pradesh. Later she joined as Co-Founder of Containe Technologies Private Limited in 2008 and have 14 years of experience as the head of the marketing department of Containe Technologies Limited.

For Further details on: **“Our Promoters and Promoter Group”** refer Page No. 121 of the Prospectus.

BUSINESS OVERVIEW AND STRATEGY

Brief Overview of Our Company and Business:

Containe Technologies Limited was incorporated in the month of September 2008, is engaged in the business of Automobile Safety and GPS solutions in Automobile Sector. We manufacture wide range of technology-intensive electronic and mechanical automotive products. These have applications across vehicle segments, including for four-wheeler passenger vehicles, light commercial vehicles, heavy commercial vehicles.

Our Company is manufacturing electronic Speed Limiting Device (SLD), “MOTOREYE & LIMITS” Brand Electronic Fuel Regulator & Pedal Interface, suitable for the latest Vehicle of BS-IV Standards to the Oldest Vehicles. The Speed Limiting Devices are Tested and Approved by Automotive Research Association of India (ARAI), Pune. It is suitable for all types of commercial transport category of vehicles and educational institutions Buses. Our Company is also manufacturing Vehicle Location Tracking Devices (VLTD), “TRANOPRO” Brand, suitable for all types of vehicles. The Vehicle Location Tracking Devices are Tested and Approved by International Centre for Automotive Technology (ICAT).

We have one manufacturing unit at Marriguda, Secunderabad, Hyderabad. We employ an extensive and stringent quality control mechanism at each stage of the manufacturing process in these facilities to ensure that our finished product conforms to the exact requirements of Central Motor Vehicle (CMV) Rules, Government of India.

Containe Technologies Limited is an ISO 9001:2015 certified organization engaged in the business of Design, Development, Manufacturing, Supply & Service of Electronic Speed Limiting Devices and GSM/GPRS/GPS/IRNSS based Communication & Controlling Vehicle Location Tracking Devices, Marketing & Sales of IOT Devices & Lithium Ion Battery Operated 2-wheeler & 3-wheeler Auto Rickshaws. We are committed to provide quality work to our customers that meets the industry standards.

Our Company Operates in the following segments:

1. Manufacturing of Speed Limiting Devices (SLD)
 - A. Electronic Fuel Regulator (EFRT) – AIS 018
 - B. Electronic Pedal Interface (EPI) – AIS 018
2. Manufacturing of Vehicle Location Tracking Devices (VLTD) – AIS 140
3. Manufacturing Embedded SIM Cards (eSIM)

Our Product Portfolio:

Speed Limitation Device:

Electronic Fuel Regulator (EFRT) – AIS 018

A Speed Limitation Device, is a safety device that prevents a vehicle from running over a certain speed that is pre-specified by the Government. It controls the speed of the vehicle by regulating fuel flow to the engine based on the vehicle speed.

Stick to the speed limit without having to check your speedometer repeatedly with the dependable “MOTOREYE” Speed Limitation Device. This speed limiter will relieve people from the need to check speed again and again while driving. It is a preventive device that will improve road safety and nullify risk penalty points due to exceeded speed limit.

Electronic Pedal Interface (EPI) – AIS 018

The electronic pedal interface type device is a complete electronic device. The signal from the electronic accelerator pedal is read by the system and supplied back to the vehicle ECM, till vehicle speed exceeds the speed limit. The system will control & adjust the voltage level given into the vehicle ECM, in order to keep the vehicle speed under the set limit.

Vehicle Location Tracking Device (VLTD) – AIS 140 (IRNSS)

With its simplest definition, a vehicle tracking system is the system that allows tracking and controlling of vehicles via an online computer, smart phone, tablet, etc. on a 24/7 basis thanks to GPS satellites. Vehicle tracking systems make it possible to have an instantaneous and history tracking of vehicle speeds, the routes they followed, stopping points, idling times on maps providing a registry and check point with past and present reports.

The Product has been Tested as per Automotive Industry Standard AIS-004. This product is approved by ARAI Vide certificate no: ARAI/AED/DT/OC-1415-1106/176. This GPS/VTS (vehicle tracking system) is designed with Quad band GSM / GPRS Module, equipped with GPS receiver to provide accurate navigation data, this can be remotely configured (OTA Configuration).

We have Tested AIS-140 (IRNSS) Vehicle Location Tracking Device in the Brand Name of TRANOPRO (TRPRO140) with SOS PANIC Switch (TRPROSOS) from ICAT -IMT - Manesar, Gurugram, Haryana State, vide: TAC NO.CK8073 (Certificate No. CT0GP8538) Dated: 27.06.2019, and Completed TWO COP's.

Embedded Sim Cards (eSIM)

The term “eSIM” stands for embedded SIM card or electronic SIM card. To describe an eSIM, it's primarily a little chip inserted within the GPS Tracker Device or any other device. An eSIM works within the same manner the normal chip works. In eSIM, there's no physical SIM cards concerned and needs no physical swapping over. eSIM must be supported by the carrier or mobile network and it ought to be enabled by them. Being tiny, and not requiring extra room for a slot, eSIMs can be built into devices like drones, wearables, sensors, and location trackers, where size is of the essence. They can also be soldered into industrial equipment where a SIM card may not be easily accessible. GPS tracking Device, having an embedded eSIM enables to remotely switch carriers on demand. Not only does this save time and money from physically swapping SIM cards, but it also enables IoT project managers to seamlessly sync up each device with each carrier based on device location at any given time. eSIM technology even supports dual-SIM functionality, which can be especially convenient for IoT and M2M projects. This development provides IoT and M2M markets with countless benefits, including operational efficiency, design flexibility, device security, seamless scalability and more. Another benefit of having eSIM cards embedded within the device is that it limits any access to external threats that could compromise the device's security.

Key Performance Indicators: Revenue from operations, EBITDA and Net Profit Margin

Industries Served: Auto-components industry

Employees Strength: We have a total of 18 employees.

OBJECT OF THE ISSUE

The Issue includes a fresh Issue of 17,44,000 Equity Shares of our Company at an Issue Price of ₹15/- per Equity Share aggregating to ₹261.60 Lakhs.

Our Company proposes to utilize the funds which are being raised through this Issue towards the below mentioned objects and gain benefits of listing on SME Platform of BSE Limited.

The Objects of the Issue are:

- A. To meet the working capital requirements
- B. To meet the Issue Expenses
- C. General Corporate Purposes

Our Company believes that listing will enhance our Company's corporate image, brand name and create a public market for its Equity Shares in India. It will also make future financing easier and affordable in case of expansion or diversification of the business. Further, listing attracts interest of institutional investors as well as foreign institutional investors.

The main objects clause of our Memorandum enables our Company to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the object's clause of our Memorandum. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution.

Details of means of finance –

The fund requirements for each of the objects of the Issue are stated as follows: (₹ in lakhs)

Sr. No.	Objects of the Issue	Total estimate cost	Amount deployed till	Amount to be financed from Net Proceeds	Estimated Net Proceeds Utilization
					Fiscal 2023
1	To meet the working capital requirements	206.60	NIL	206.60	206.60
2	General corporate purposes	31.65	NIL	31.65	31.65
3	Issue related expenses	23.35	NIL	23.35	23.35
	Total	261.60	NIL	261.60	261.60

For further details please refer chapter "Object of the issue" beginning on page no. 57 of the prospectus.

INTERNAL RISK FACTORS

The below mentioned risks are top 10 risk factors as per the Prospectus.

- Our Company is dependent on external suppliers/distributors for its component's requirements. Any delay or failure on the part of the external suppliers/distributors to deliver products, may materially and adversely affect our business, profitability and reputation.
- Our technology infrastructure is critical to our business operations and growth prospects, and failure to improve or effectively utilise our technology infrastructure or prevent disruptions to our technology infrastructure could harm our business operations, reputation and growth prospects.
- Our failure to adapt to technological developments or industry trends could affect the performance and features of our products and services, and reduce our attractiveness to our customers.
- Our business is depending on various government interventions, permissions, and compliances and regular check-ups and verifications.
- Our Company has grown consistently over the past few years utilizing the expertise of its experienced management team and its effectiveness in strategy implementation. A high turnover of its skilled staff will negatively impact the aggressive growth plans of the company to become a national player.
- Our Company is party to certain litigation and claims. Any adverse decision may make us liable to liabilities/penalties and may adversely affect our reputation, business and financial status.
- There are contingent liabilities of the Company which may result in financial iniquities in the company.
- Our business is dependent on developing and maintaining continuing relationships with our customers. The loss of any significant customer could have a material adverse effect on our business, financial condition and results of operations.
- We have not entered into long-term contracts with our suppliers. An increase in material costs or other costs or loss of any of our suppliers due to delayed payments or otherwise, resulting in shortfall in the supply of the materials may adversely impact the pricing and supply of our Products and have an adverse effect on our business
- Product development is a long, expensive and uncertain process and our current expenditure in product development may not provide a sufficient or timely return.

For further details please refer the chapter "*Risk Factor*" on page no. 20 of our Prospectus.
